## THE ROYAL MILITARY COLLEGE

THERE are few national institutions of more value and interest to the country than the Royal Military College of Canada. Notwithstanding this, its object and the work it is accomplishing are not sufficiently understood by the general public.

The College is a Government institution, designed primarily for the purpose of giving instruction in all branches of military science to cadets and officers of the Canadian Militia. In fact, it corresponds to Woolwich and Sandhurst.

The Commandant and military instructors are all officers on the active list of the Imperial army, lent for the purpose, and there is in addition a complete staff of professors for the civil subjects which form such an important part of the College course. Medical attendance is also provided.

Whilst the College is organized on a strictly military basis, the cadets receive a practical and scientific training in subjects essential to a sound modern education.

The course includes a thorough grounding in Mathematics, Civil Engineering, Surveying, Physics, Chemistry, French and English.

The strict discipline maintained at the College is one of the most valuable features of the course, and, in addition, the constant practice of gymnastics, drills and outdoor exercises of all kinds, ensures health and excellent physical condition.

Commissions in all branches of the Imperial service and Canadian Permanent Force are offered annually.

The diploma of graduation is considered by the authorities conducting the examination for Dominion Land Surveyor to be equivalent to a university degree, and by the Regulations of the Law Society of Ontario it obtains the same exemptions as a B.A. degree.

The length of the course is three years, in three terms of  $9\frac{1}{2}$  months each.

The total cost of the course, including board, uniform, instructional material, and all extras, is about \$800.

The annual competitive examination for admission to the College takes place in May of each year, at the headquarters of the several military districts.

For full particulars regarding this examination and for any other information, application should be made to the Secretary of the Militia Council, Ottawa, Ont., or to the Commandant, Royal Military College, Kingston, Ont.

## Explanation of the Articles in the Calendar.

Standard times\* are given in all columns headed Toronto, Quebec, and Winnipeg.

The times\* of the SUN'S RISING AND SETTING\* are given for the upper limb, and are corrected for refraction for Toronto, Quebec and Winnipeg.

The standard times\* both for the rising and setting of the Moon's centre are given for every day for Toronto, Quebec and Winnipeg.

The column, SUN ON MERIDIAN, gives the time that a watch keeping local mean time should show when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shows to the nearest tenth of a day the Moon's age at Toronto mean noon.

The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time\* at which the Pole Star makes its upper transit across the meridian of longitude 4. 46m. W. It passes the meridian twice on October 13th.

The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 58m. 2s. to the time of the preceding upper transit.

The column, Sidereal Time Sun on Meridian, shows for every day the Sidereal Time when the TRUE SUN'S centre is on the meridian of longitude 4. 46m. W. (71° 30'). For any other meridian interpolation of these quantities is necessary. For example, on Sept. 7th, 1912, what is the sidereal time when the Sun's centre is on the 82nd meridian west longitude. Here the difference in longitude is 10°.5. The tabulated sidereal time on the 7th is 11h. 3m. 30s., and on the 8th, 11h. 7m. 6s., giving an increase of 216 secs. which, multiplied by 10.5 and divided by 360, gives 6 secs. corr. to be added to 11h. 3m. 30 secs.

GREATEST ELONGATION OF THE POLE STAR.—This table gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 42°, with the corresponding corrections, which are additive, for latitudes up to 65°. (See pages 33 and 34.)

From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table. These constants are calculated for declination 88° 50' 26". The maximum error in the use of this Table will not exceed 5 secs. in the higher latitudes, and less for the lower latitudes.

MOON'S PHASES.—This Table gives the times (standard 75th meridian)\* when the Moon passes the geocentric longitudes of 0°, 90°, 180°, and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

\* In the present Almanac the hours are numbered from 0 (midnight) to 23.

† Although these times are calculated for Toronto, Quebec and Winnipeg only, the standard times at other places not differing much from them in latitude may be obtained with sufficient accuracy for ordinary purposes by adding four minutes for every degree west, and subtracting four minutes for every degree east of these places.

## STAR TABLE.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following Table, the approximate times of the culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following Table will be on the meridian, add the number in the left-hand column of figures to the meridian transit of the pole star given in the calendar, and from the result subtract the constant quantity 1h. 26m.

To find the time of rising of the star, subtract the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the setting, add the same number to the time of its meridian passage. Those stars marked (....) revolve in

a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

*Example.*—Find the times of culmination, rising and setting of a Tauri (*Aldebaran*), January 2nd, 1912.

## ECLIPSES DURING 1912.

(F. L. BLAKE.)

In the year 1912 there will be four eclipses, two of the Sun and two of the Moon.

I.—A Partial Eclipse of the Moon, 1912, April 1st. Invisible in North America.

II.—A Central Eclipse of the Sun, April 16th-17th. Visible at Toronto as a partial eclipse, the sun rising eclipsed. The Central Eclipse will be total for about thirty-two minutes at the middle of its duration. For the rest of its duration it will be annular.

The path of the Central Eclipse will be annular over the Atlantic Ocean from Guiana, in South America, to near the coast of Spain, when for a short time it will be total, becoming annular again from Spain through France, Germany and Russia.

III.—A Partial Eclipse of the Moon, 1912, Sept. 25th-26th, the moon setting at Toronto about the time the eclipse begins; the beginning visible generally in North America except the extreme eastern portion, the Pacific Ocean, Eastern Asia and Australia. The ending visible in Central and Western North America, the Pacific Ocean, Australia, Central and Eastern Asia.

The correction for an increase of altitude of one inch in the barometer or for a decrease of one degree in the thermometer, is to be added to the *tabular refraction*, but when the barometer is lower than 30 inches, or the thermometer higher than 47°, the corrections become *subtractive*. When great accuracy is required, 0.003 inch should be deducted from the observed height of the barometer for each degree that the thermometer near it is above 50°, and the same quantity added for an equal decrease.

**GRAVING DOCKS IN CANADA.**—There are four graving docks in Canada, three belonging to the Federal Government and one owned by a company. For 20 years from the completion the company has subsidies from the Imperial and Canadian Governments and from the city of Halifax, where it is located, amounting in all to about \$90,000 (£6,180), of which the Canadian Government pays \$10,000 a year. The following statement shows the dimensions of these graving docks:—

# TIDE TABLES FOR HALIFAX, QUEBEC, AND ST. JOHN, N.B., 1912

These Tide Tables, with Tidal Differences for other places, are issued by the Tidal and Current Survey, in the Department of the Naval Service. They are based upon observations obtained by means of self-registering tide gauges, kept in continuous operation throughout the year. The records are reduced by the latest methods of analysis, and the principal tide tables are computed in the Nautical Almanac office, London.

The Tide Tables are based upon the analysis of the following tidal record:—Halifax, upon record obtained during the years 1851, 1852, 1860 and 1861, together with nine complete years between October 1895 and July 1906. Quebec, upon thirteen complete years, between November 1893, and April 1908. Father Point, upon nine complete years, between January 1897 and October 1907. St. John, N.B., upon ten complete years, between April 1894 and June 1905.

W. BELL DAWSON, Superintendent.

The Time used is Atlantic Standard, for the 60th Meridian, which is four hours slower than Greenwich Mean Time. It is counted from 0 to 24 hours, from midnight to midnight.

The Height is measured from the level of Low Water at Spring Tides as ascertained by the tide gauge observations themselves. (This level is approximately 1½ feet lower than the Datum to which the soundings on the Chart of St. John Harbour are referred, as nearly as this can now be ascertained.)

TIDAL DIFFERENCES and other information for the Bay of Fundy, are given on page 39.

Mile.....	=	8 furlongs, 80 chains, 320 rods, 1,760 yards, 5,280 feet, 63,360 inches.

## SQUARE, SURFACE, OR LAND MEASURE.

The square foot contains 144 square inches.  
Yard = 9 feet = 1,296 inches.  
Rod, pole, or perch = 30½ yards = 272½ feet.  
Chain = 16 rods = 484 yards = 4,356 feet.  
Rood = 40 rods = 1,210 yards = 10,890 feet.  
Acre = 4 roods = 160 rods = 4,840 yards.  
Mile = 640 acres = 2,560 roods = 6,400 chains = 102,400 rods, poles, or perches, or 3,097,600 square yards.  
An acre roughly stated has four equal sides of 69½ yards; *accurate* measurement gives each side 208.71 feet.  
The sides of a square half-acre would be 147.581 feet, and of a square quarter-acre 104.355 feet.

## MEASURES OF TIME.

60 seconds = 1 minute.	28, 29, 30, or 31 days = 1 calendar month.
60 minutes = 1 hour.	12 calendar months = 1 year.
24 hours = 1 day.	365½ days = 1 common year.
23 h. 56 m. 4 s = 1 sidereal day.	366 days = 1 leap year.
7 days = 1 week.	365d. 5h. 48m. 46s. = 1 tropical year.
28 days = 1 lunar month.	

The astronomical day commences at noon, and is computed from 1 to 24 hours.

In 400 years 97 are leap years and 303 common, leap year being omitted every 100 year, but *not* omitted every 400th. (1900 was not a leap year.)

## ANGULAR MEASURE.

60 seconds' = 1 minute.	90 degrees' = 1 quadrant.
60 minutes' = 1 degree.	4 quadrants, or 360° = 1 circumference or circle.
30 degrees' = 1 sign.	
The earth rotates at a velocity of 15 degrees an hour (about 17,366 miles a minute at the equator); 1° is therefore equal to 4 minutes.	

## CIRCULAR MEASURE.

Diameter of a circle × 3.1416 gives circumference.  
Diameter squared × .7854 gives area of circle.  
Diameter squared × 3.1416 gives surface of sphere.  
Diameter cubed × .5236 gives solidity of sphere.  
One degree of circumference × 57.3 gives radius.  
Diameter of cylinder × 3.1416, and product by its length, gives the surface.  
Diameter squared × .7854, and product by the length, gives solid contents.  
A circular acre is 235.504 feet, a circular rood 117.752 feet in diameter. The circumference of the globe is about 24,855 miles, and the diameter about 7,900 miles.

## DUMPING CLAUSE

6. In the case of articles exported to Canada of a class or kind made in Canada, if the export or actual selling price to an importer in Canada be less than the fair market value of the same article when sold for home consumption in the usual and ordinary course in the country whence exported to Canada at the time of its exportation to Canada there shall, in addition to the duties otherwise established, be levied, collected and paid on such article, on its importation into Canada, a special duty (or dumping duty) equal to the difference between the said selling price of the article for export and the said fair market value thereof for home consumption;

Provided that the said special duty shall not exceed fifteen per cent. ad valorem in any case;

Provided also that the following goods shall be exempt from such special duty, viz.:

(a) Goods whereon the duties otherwise established are equal to fifty per cent. ad valorem;

(b) Goods of a class subject to excise duty in Canada;

(c) Sugar refined in the United Kingdom.

(d) Binder twine or twine for harvest binders manufactured from New Zealand hemp, istle or tampico fibre, sisal grass or sunn, or a mixture of any two or more of them, of single ply and measuring not exceeding six hundred feet to the pound.

Provided further that excise duties shall be disregarded in estimating the market value of goods for the purposes of special duty when the goods are entitled to entry under the British Preferential Tariff.

(2) That the expression "export price" or "selling price" in this section shall be held to mean and include the exporter's price for the goods, exclusive of all charges thereon after their shipment from the place whence exported directly to Canada.

(3) That if at any time it appears to the satisfaction of the Governor-in-Council, on a report from the Minister of Customs, that the payment of the special duty by this section provided for is being evaded by the shipment of goods on consignment without sale prior to such shipment, the Governor-in-Council may in any case or class of cases authorize such action as is deemed necessary to collect on such goods or any of them the same special duty as if the goods had been sold to an importer in Canada prior to their shipment to Canada.

(4) If the full amount of any special duty of customs is not paid on goods imported, the customs entry thereof shall be amended and the deficiency paid upon the demand of the Collector of Customs.

(5) The Minister of Customs may make such regulations as are deemed necessary for carrying out the provisions of this section and for the enforcement thereof.

(6) Such regulations may provide for the temporary exemption from special duty of any article or class of articles, when it is established to the satisfaction of the Minister of Customs that such articles are not made or sold in Canada in substantial quantities, and offered for sale to all purchasers on equal terms.

(7) Such regulations may also provide for the exemption from special duty of any article when the difference between the fair market value and the selling price thereof to the importer as aforesaid amounts only to a small percentage of its fair market value.

## SURTAX

7. Articles which are the produce or manufacture of any foreign country which treats imports from Canada less favourably than those from other countries may be subject to a Surtax over and above the duties specified in Schedule "A," such Surtax in every case to be one-third of the duty specified in the General Tariff in the said Schedule "A."

(1) Any question arising as to any foreign country or goods coming under the operations of the provisions in regard to the Surtax shall be decided by the Minister of Customs, whose decision shall be final;

Provided that the Governor-in-Council may make regulations for carrying out the purposes of this Section, and may, by Order-in-Council, from time to time suspend the Surtax from application to the goods of any country.

## FISH FROM NEWFOUNDLAND

## PROHIBITED GOODS

11. The importation into Canada of any goods enumerated, described or referred to in Schedule "C" hereto is prohibited; and that any such goods imported shall thereby become forfeited to the Crown and shall be destroyed or otherwise dealt with as the Minister of Customs directs; and that any person importing any such prohibited goods, or causing or permitting them to be imported, shall for each offence incur a penalty not exceeding two hundred dollars.

## COMBINE CLAUSE

12. Whenever from or as a result of a judgment of the Supreme Court, or Exchequer Court of Canada, or of any superior court, or circuit, district, or county court in Canada, it appears to the satisfaction of the Governor-in-Council, that with regard to any article of commerce there exists any conspiracy, combination, agreement or arrangement of any kind among manufacturers of such articles or dealers therein to unduly promote the advantage of the manufacturers or dealers at the expense of the consumers, the Governor-in-Council may admit the article free of duty, or so reduce the duty thereon as to give to the public the benefit of reasonable competition in the article, if it appears to the Governor-in-Council that such disadvantage to the consumer is facilitated by the duties of Customs imposed on a like article.

(2) Whenever the Governor-in-Council deems it to be in the public interest to enquire into any conspiracy, combination, agreement or arrangement alleged to exist among manufacturers or dealers in any article of commerce to unduly promote the advantage of the manufacturers or dealers in such article at the expense of the consumers, the Governor-in-Council may commission or empower any judge of the Supreme Court, or Exchequer Court of Canada, or of any Superior Court or County Court in Canada, to enquire in a summary way into and report to the Governor-in-Council whether such conspiracy, combination, agreement or arrangement exists.

(3) The judge may compel the attendance of witnesses and examine them under oath and require the production of books and papers, and shall have such other necessary powers as are conferred upon him by the Governor-in-Council for the purpose of such enquiry.

(4) If the judge reports that such conspiracy, combination, agreement or arrangement exists in respect of such article the Governor-in-Council may admit the article free of duty, or so reduce the duty thereon as to give to the public the benefit of reasonable competition in the article, if it appears to the Governor-in-Council that such disadvantage to the consumer is facilitated by the duties of Customs imposed on a like article.

# CANADIAN TARIFF OF CUSTOMS

COMPILED AND REVISED BY O. H. COGSWELL, B.A., OTTAWA

NOTE.—For the convenience of the public we have enlarged this edition of the Tariff by the insertion of a large number of items not classified in the official tariff. We have assigned the rates to the best of our information and judgment, and we believe they will be found fairly correct. We, however, disclaim all responsibility should the rates assigned not be verified as correct by the rulings of the Department.

Where there are three rates of Duty given, the first is the British Preferential Tariff, the second is the Intermediate Tariff, and the third is the General Tariff. The rate of Duty is per cent. *ad valorem* except when otherwise specified.

\* Items marked thus have the advantage of the Intermediate Tariff rates when the importation is from French Treaty countries, The Netherlands, or Belgium.

† Items marked thus have the advantage of the Intermediate Tariff rates when the importation is from French Treaty countries, The Netherlands, Belgium or Italy.

Rates that have been lowered from the General to the Intermediate Tariff according to the terms of the agreement with the United States of America that came in force on March 31st, 1910, are printed in brackets [ ].

Abbreviations, F.T. = French Treaty, Sp.T. = Special Tariff.

## THE KING'S CIVIL LIST.

Consequent upon the death of His Majesty King Edward VII., and the accession of His Majesty George V., there was passed in the Parliamentary session of 1910 what is known as the Civil List Act, the Act by which is determined what charges shall be made on the consolidated fund for the maintenance of the King and his family.

Until George III. came to the throne in 1760, the income of the sovereign was derived chiefly from Crown lands, from a variety of landed property in England and Wales, Scotland and Ireland, in which the sovereign had a life-interest, and from which he received the rents. In the feudal ages these lands constituted a princely patrimony. In later times this Crown property was greatly reduced by lavish grants to royal favorites. At the Restoration the income from Crown lands was ascertained by a committee of the House of Commons to amount to £217,900 a year, in addition to £4,000 from the Forest of Dean. By the time Charles II. had been on the throne three years he had by his lavish bestowal of the lands on favorites reduced the income to £100,000. William III., by his grants to favorites who had accompanied him from Holland, made further havoc with the Crown domains; so much so that at the accession of Queen Anne Parliament endeavored to save the remnant by an Act (1 Anne, c. 8) which prohibited alienation of Crown lands, and enacted stringent provisions in regard to the length of the term for which they might be leased and the rents reserved.

Since then, and especially since the Accession of the late King Edward VII., the income from the Crown Lands has very greatly increased.

Queen Anne, George I. and George II. derived the larger part of their income from their life-interest in the Crown property, but when George III. came to the throne he surrendered his life-interest in the Crown lands. It was turned over to the nation in return for a fixed Civil List of £800,000, subsequently increased to £900,000. George IV., William IV., Queen Victoria and Edward VII., on their accessions, surrendered their life-interest in the Crown lands in return for a Civil List. The same course was taken by George V. when he came to the throne; and on June 15th, 1910, a committee of the House of Commons was appointed to recommend the new Civil List. It reported on the 6th of July, 1910, and its recommendations were embodied in an Act (1 George V., c. 5), which was passed through all its stages in the House of Lords on August 2nd, 1910. By this Act the King's Civil List was fixed at the yearly sum of £470,000, which was the same amount as that granted to King Edward VII.

CLASSES OF EXPENDITURE.	SUM APPROPRIATED.
I. Their Majesties' Privy Purse.....	£110,000
II. Salaries of His Majesty's household and retired allowances.....	125,800
III. Expenses of His Majesty's household.....	193,000
IV. Works.....	20,000
V. Royal bounty, alms and special services.....	13,200
VI. Unappropriated.....	8,000
Total.....	£470,000

Her Majesty Queen Alexandra in accordance with the Civil List Act passed at the accession of Edward VII. (1 Edward VII., c. 4), enjoys an annuity of £70,000, and a similar provision is made in the Civil List Act of 1910 for Queen Mary in case she survives the King.

The late King Edward's daughters, Princess Louise (Duchess of Fife), Princess Victoria and Princess Maud (Princess Charles of Denmark), receive an annual allowance of £18,000 during their joint lives, which will be reduced at the death of each of the said princesses by £6,000.

At the death of Edward VII. the provision for the Royal Family amounted in all to £576,000, being £470,000 for the King's Civil List, and £106,000 in respect of allowances to other members of the Royal Family. This amount is somewhat increased by the allowance of \$70,000 made to Queen Alexandra. As the Prince of Wales is entitled to the revenues of the Duchy of Cornwall, no special provision was made for him in the Civil List Act of 1910, but it was provided that, in the event of his marrying, an allowance of £10,000 a year should be made to the Princess of Wales, to be increased to \$30,000 should she survive his Royal Highness. Each of King George's sons is to receive an annuity of \$10,000 on coming of age, to be increased to £15,000 on his marrying. The allowance to daughters is to be £6,000 a year. No provision is made in the Act for children of younger members of the Royal Family.

The annuities to the Royal Family after the resettlement at the accession of George V. stand thus:—

His Majesty (Civil List) .....	£470,000
Queen Alexandra.....	70,000
Persons transferred to Consolidated Fund .....	18,000
Princesses Louise, Victoria and Maud..	18,000
Princess Christian of Schleswig-Holstein .....	6,000
Princess Louise, Duchess of Argyll....	6,000
Duke of Connaught.....	25,000
Princess Beatrice (of Battenburg) ....	6,000
Duchess of Mecklinburg-Strelitz.....	3,000
Duchess of Edinburgh.....	6,000
Duchess of Albany.....	6,000
Total.....	£634,000

The revenues of the Duchies of Cornwall and Lancaster are outside the Civil List arrangement. Those of Cornwall, valued at £60,000 a year, are vested in the eldest son of the reigning sovereign, who becomes by birth the Duke of Cornwall, by virtue of a patent of Edward III. in 1337. The Duchy of Lancaster was the private patrimony of Henry Bolingbroke, son of John of Gaunt. It is separate from the other possessions of the Crown in order and government, but united to it in point of inheritance. It also brings in a revenue of £60,000 a year.

## THE BRITISH ARMY IN 1911-12.

The Army Estimates for the financial year 1911-12, which were submitted to Parliament by Mr. Haldane on the 25th of February, 1911, showed a slight reduction from those of 1910-11. The total amount for 1911-12 was £27,600,000 as against £27,760,000 for 1910-11. This reduction of £70,000 was entirely due to the termination of barrack loan annuities amounting to £304,000. Against this decrease of annual expenditure, there was a net increase of £108,000 in the cost of the Territorial Force, an increase of £20,000 for military works, a provision of £30,000 for the cost of the Coronation military ceremonies, and of £23,000 for the purchase of a new artillery range in Northumberland—leaving a balance of £70,000 as the net savings on the estimates for the year. The figures for the six years since the Liberal Governments have been in office are:—

1906-7.....	£27,764,900
1907-8.....	27,141,642
1908-9.....	27,459,000
1909-10.....	27,435,000
1910-11.....	27,760,000
1911-12.....	27,600,000

These figures, however, compare favorably with the last two years of the late Conservative Administration, when there were extraordinary expenses still to be defrayed as a result of the Boer War. The figures for 1904-5 were £33,830,000, and for 1905-6 £29,813,000.

### NUMBERS OF THE FORCES.

The Estimates provided for an increase in the numbers of the men in the regular forces of 2,200. This increase was due mainly to the addition of 1,850 men to meet the exceptional conditions for recruiting for cavalry and in infantry during the next few years, due to changes in the terms of enlistment made by Mr. Haldane when he undertook the reform and reorganization of the army in 1906. The result of the changes then made was, for awhile, to destroy the even yearly flow of trained men to the Reserve, and of recruits to fill their places in the ranks. In 1911-12 the vacancies for recruits were abnormally low; but this condition would be followed by a general exodus to the Reserve requiring extraordinarily high recruiting to keep the ranks full. The extra men were authorized by Parliament in order to allow of larger recruiting before the vacancies actually occurred.

### RECRUITING.

Owing to the activity of trade in England in 1910-11 the year had been a bad one for recruiting, and as there seemed no slackening of trade in sight when Mr. Haldane explained the Estimates to the House of Commons on March 15th, it was anticipated that there might be some difficulty in keeping the establishments full and in obtaining the additional men for whom the vote was asked. On the 1st of January, 1911, the establishments were 1,700 short, but most of this shortage was made good between January and March. The ranks most difficult to fill were those of the Royal Engineers. "It is getting more and more difficult," said Mr. Haldane in explaining this shortage of engineers, "to get Royal Engineers. There is to be a review of the modes of specialization of the Engineer Corps, to make them

the force which the army under its new organization requires. Lord Kitchener is likely to undertake the investigation at the head of an expert committee and I have no doubt that his vast experience and authority will enable the committee to get the best conclusion on the subject."

### THE SUPPLY OF OFFICERS.

Of recent years there has been a disquieting deficiency in the supply of officers, and the Army Council prepared for the use of the Secretary of War carefully compiled figures for the two quinquennial periods—1900-05 and 1906-10. From these, it was found that the annual supply of candidates presenting themselves at Sandhurst was substantially similar, and that the shortage was due (1) to the greater demand for officers, due to the expansion of the forces and the calls from the Territorial Forces; and (2) to the number of candidates "plucked" at the examinations. In order to obtain more candidates and to facilitate the training of those who presented themselves, Mr. Haldane arranged for a simplification of the conditions of admission to Sandhurst, and also for the institution of a system of scholarships which would reduce the cost of education of the successful competitors by about one-half. On entrance, there is to be one competitive examination which may be taken by boys, 17 years of age, who are nominated by the headmasters of selected schools. Provision is also made for boys who wish to proceed to the universities after training. In this way it was hoped that a superior class of boys might be obtained, and that an increased number would be available. There was some criticism of this scheme when the Estimates were under consideration by the House of Commons, and the suggestion was made that it would be better to increase the pay of the officers. "I quite agree," replied Mr. Haldane to this criticism, "that the pay of the officers is not what it ought to be. It is enormously difficult to deal with the problem. Increased pay of late years has gone a good way to soften the difficulty, but sooner or later we shall have to face this question and see what can be done."

### ARMAMENTS.

The chief feature of the year 1911-12 with regard to armament was the rearmament of the Field Howitzer Batteries with the new quick firing Howitzer guns. This change was begun in 1910, and was expected to be complete before the close of 1911, when all the Howitzer brigades would be practising with the new weapon. The adoption of a new pattern of small arm ammunition was reported by Mr. Haldane. This has a pointed bullet of 174 grains. He also reported on the automatic rifles that had been under examination. So far, he stated, none had been found satisfactory, but experiments were still proceeding. The cavalry was being entirely rearmed with a new-pattern sword, and this rearmament was also expected to be complete by the end of the year.

### BARRACKS AND HOSPITALS.

A special feature of the year 1911-12 was the activity in barracks building. In Edinburgh new barracks were in course of construction for a cavalry regiment, and a

beginning was to be made there on new barracks for infantry. A commencement was made on the construction of permanent barracks at Lichfield to replace huts in which an infantry regiment had been housed, and at Fermoey barracks for a complete brigade of infantry were undertaken during the course of the year. Steady progress was also made in the provision of new married quarters, and £50,000 was provided for this purpose in the vote for buildings in 1911-12. In regard to hospitals the plan now being carried out looks to the provision of large hospitals on modern lines at certain central stations. The hospitals already in service under the scheme are at Arbour Hill (Dublin), Chatham, York and Tidworth. All these four are being enlarged and transformed, but the work will not be completed within the year 1911-12.

#### CAVALRY AND HORSES.

The deficiency in horses on which Mr. Haldane had particularly commented in 1910, showed little improvement in 1911. This feature of the estimates was severely criticized by Mr. Hamar Greenwood when the estimates were before the House of Commons. Mr. Haldane had admitted that there were barely sufficient horses to mobilize the regular cavalry—11,000 men,—that 20 per cent. of the horses were over 13 years of age, and that 102 of the horses enumerated were veterans of the stables whose age could not be stated. "It had been urged," said Mr. Greenwood, "that there were 500,000 horses in the country; but as many as 500,000 horses had been lost in the South African War, where every man used from five to six horses. It was farcical to suggest that cavalry with only one horse per man was fit to take the field. There were, it was true, contractors in London who let out their horses to five different regiments in turn during the year. From each regiment the contractor got the Government bonus of £5. The question was which of the five regiments would get these horses on mobilization in case of war." No suggestion was made of any new method of dealing with the problem of the deficiency of horses.

#### AERONAUTICS.

The provision for aeronautics in the estimates for 1911-12 was £133,300. In addition to this there was the money spent on the Teddington Special Committee which sat under the chairmanship of Lord Rayleigh as an advisory committee—not to invent or design, but to solve problems. In March, 1911, the aeronautical equipment of the British army consisted of five dirigible airships, five aeroplanes and four bi-planes. The dirigibles were the Beta, Gamma and Delta, and the Lebaudy airship, which was presented to the army by the *Morning Post* of London. The fifth was the older Clement Bayard, which early in 1911 was equipped with a new gas-bag. The five aeroplanes were of the Wright, Farman, Paulhan, Bleriot and Haviland types, and the bi-planes were purchased from Sir George White of Bristol, and were chiefly useful for practising observation piloting. The balloon factory at Aldershot during 1911 was reorganized and enlarged, and put in condition to deal with the large airships of the most modern type. Provision was made in the estimates for £23,000 for the construction of a large new airship shed at Farnborough, and for the enlargement of the one at Wormwood Scrubs. A commencement was made in

1911 in the formation of an air battalion, the officers of which are not to be drawn exclusively from the Royal Engineers, but are to be appointed from any arm of the service, provided they show the necessary aptitude. For the training of these officers the balloon school was reorganized, with the help of an advisory committee which included Mr. Graham White and Mr. Roger Wallace.

#### SPECIAL RESERVE MODIFICATIONS.

An experience of conditions in the Special Reserve forces had convinced Mr. Haldane that some changes were necessary if the reserve was to be able, in case of war, to embark at an adequate strength for their duties. The present establishment of 580 was retained for the 74 Reserve Battalions; but for the Special Reserve the establishment was raised to 750, four officers being withdrawn from each of the 27 battalions to provide each regular infantry battalion with an extra officer. The terms of enlistment in the Special Reserve were modified to admit of the entry of men, who having left the regular army, had been debarred by the age limit for recruits from serving in the Special Reserve. The annual period for field training and musketry combined was increased from 21 to 27 days, and the period of recruit drill shortened from six to five months. Mr. Haldane further explained that, in view of the considerable stiffening of ex-regulars which it was intended to introduce into the Special Reserves, a further shortening of the period of recruit drill to three months was, in the opinion of the general officers commanding-in-chief, feasible and advisable. In the case of certain battalions which experienced difficulties in completing their establishment, permission would be given to enlist a certain number of men to do a refresher course of drill of 14 days at the depot, or with the home battalion, at such time as they could arrange, instead of at the fixed time of battalion training, thus securing men who could not make the rigid terms previously imposed fit the conditions of their civilian employment. As to officers, the period of probationary training was reduced from 12 months to six months, with further reduction for those holding certificates from officers' training corps.

#### THE TERRITORIAL FORCES.

The strength of the Territorial Force as stated by Mr. Haldane on February 24, 1911, was 9696 officers and 257,156 non-commissioned officers and men. The establishment at the same date was 11,210 officers and 301,262 non-commissioned officers and men. Reports concerning recruiting for the Territorial Force during the earlier months of 1911 were encouraging, and the fact that the establishment was not complete was largely attributed to a need for larger appropriations for the expenses of the Force. In order to remove these obstacles, liberal provision for increased grants to the County Associations was made in the estimates for 1911-12. Special grants were also made to supplement the income of Associations that had fallen behind in the year 1910-11. In describing the work that had been done since the submission of the estimates for the previous year, Mr. Haldane stated that 1,055 officers and 17,189 men, had accepted liability for foreign service. A system of appointing sergeant instructors for a tour of service with the Territorial Force had been approved. Schemes for capital expenditure on the provision of

drill halls, riding schools, and other necessary buildings for the Territorial Force had been submitted and approved. These schemes called for an expenditure, in the aggregate, of nearly a million pounds sterling, but when carried out the housing of the Territorial Force might be said to have been provided for.

#### THE QUESTION OF COMPULSORY SERVICE.

The most noteworthy feature of the proceedings in Parliament, with regard to the Army Estimates, was the debate in the House of Lords on April 3rd, on compulsory service. Between the submission of the Army Estimates on February 25th and the beginning of April, the War Secretary was made a peer, and on April 3rd he was in the House of Lords to answer the criticisms of Lord Roberts and Viscount Milner. Lord Roberts' criticisms were chiefly directed against the Territorial Force as the army of home defence. He suggested that Great Britain would never have an adequate army for defence against invasion until a system of compulsory military service was introduced. So far as the army was concerned, he assured the House of Lords, the British military system was hopelessly inadequate. Great Britain had neither a home army, such as was needed for the defence of the country, nor an effective regular army to protect Imperial interests abroad. The two chief shortcomings were want of numbers, owing to there being no sound system of expansion; and, especially as regarded the home army, insufficient training. He reminded his hearers of the disasters of the Boer War which were, he said, due to Britain's state of unpreparedness. "What" he asked, "had happened since? The regular army—the only portion which could be depended on to hold its own in the field—had been reduced by 30,000 men. The militia had been done away with, and replaced by a special reserve of doubtful value. With the money thus saved Britain had been given a Territorial Force which was almost as lamentably inefficient in training, even more hopelessly inefficient in numbers, and considerably more costly than were the auxiliary forces to which England had been obliged to trust during the South African War." The fundamental defect of the British system, according to Lord Roberts, the system which was the cause of all the evil, the length of the war and the cost of the war, was voluntary training. Lord Roberts did not suggest a regular army obtained by conscription. For foreign service he acknowledged that the forces must be voluntary, and he thought that this would not be interfered with by adopting a compulsory basis for the home defence army. What was necessary was a home army of one million men over and above the regular army. One million men was the smallest number that could prevent invasion, and at the same time furnish a potential reserve from which a large proportion would volunteer for service abroad.

#### HALDANE'S DEFENCE OF THE VOLUNTARY SYSTEM.

In reply Viscount Haldane began by pointing out the expense of such a system as that proposed by Lord Roberts. He would not like, he said, to contract to produce such a force under forty millions sterling. The Navy cost at the same time would be pushed up to some sixty millions, and he could not help thinking that with Navy and Army Estimates raised to 100 millions, something would happen before the force could be used in war. England would probably find herself in a condition in which the intellectual and material resources of the country had become so diminished that something like bankruptcy would be staring her in the face. The fallacy, to his mind, appeared to be that Lord Roberts insisted on preparing for the logically possible, instead of for the reasonably probable. Viscount Haldane then alluded to the friendliness of the United States, and the schemes for general arbitration treaties. He had always thought, he said, that the true commander of the forces of Great Britain was not the soldier or the sailor, but the Foreign Secretary. It depended on him what the outlook was going to be. The country must make its choice. It could not have prosperity and be crushed in time of peace by a burden of armaments fitted for a time of war.

#### THE NAVY THE FIRST LINE OF DEFENCE.

In considering the British army policy, Viscount Haldane further argued, Great Britain had to remember that it was the centre of an Empire the parts of which were separated by great stretches of sea. The command of the sea was therefore the first requisite. So long as the country had the command of the sea, the sea power was always the first line of defence against foreign invasion. The second line of defence was the destroyers and the submarine organization along the coast which were always ready to torpedo transports even if they had evaded the mobile lines of squadrons awaiting them. With these lines of defence, the War Secretary was convinced that the Territorial Force would be entirely adequate to any work that would be thrown upon it, and would, in fact, be far more efficient than a four-months trained force raised by compulsory enlistment such as was proposed by Lord Roberts. The one point in which he agreed with Lord Roberts was as regards the necessity for better physical training for boys at school. All boys from 14 to 17 should have compulsory physical training, he believed; but the War Office did not deal with school boys, and this was work which belonged rather to the Education Department. The present voluntary system, Lord Haldane concluded, was the only one that suited Great Britain, and the only system possible for an island empire. Englishmen must beware lest impulsively and rashly they took a step which would inflict a lasting blow on the British military organization.

## THE BRITISH NAVY IN 1911-12.

### THE COST OF THE NAVY 'STILL ON THE INCREASE.

There was again a large increase in the amount of money asked from Parliament for the British Navy when Mr. McKenna submitted the Naval Estimates to Parliament on the 9th of March, 1911. The total amount required for the year 1911-12 was £44,392,500, as compared with £40,603,700 for the previous year, when the vote had reached what was thought to be a high-water mark in the cost of the Navy. The amounts voted by Parliament since the Liberals came into office in 1905 have been as follows:—

1906-7.....	£33,573,302
1907-8.....	32,238,590
1908-9.....	31,789,860
1909-10.....	35,142,700
1910-11.....	40,603,700
1911-12.....	44,392,500

The cost of the Navy for the last two years of the Conservative Government was as follows:—

1904-5.....	£36,889,000
1905-6.....	33,389,000

Of the total vote of £44,392,500, new construction called for £15,063,877, as compared with £13,279,830 in the previous year. As is usually the case, the greater part of the money voted for new construction was needed for the continuation of work already begun. For this £13,325,232 was required; while £1,738,645 was allotted for beginning work on new ships.

#### NEW SHIPS AND SHIPS IN BUILDING.

The new programme of ships to be commenced during the year was submitted to Parliament by Mr. McKenna. It was as follows:—

- 5 large armoured ships.
- 3 protected cruisers.
- 1 unarmoured cruiser.
- 2 destroyers.
- 6 submarines.
- 2 river gunboats
- 1 depot ship for destroyers.
- 1 hospital ship.

Between April 1st, 1910, and March 31st, 1911, the following ships were completed and had become available for service:—

- 1 battleship (Neptune).
- 1 armoured cruiser (Indefatigable).
- 5 protected cruisers (Bristol, Glasgow, Gloucester, Liverpool, Newcastle).
- 1 unarmoured cruiser (Blanche).
- 28 destroyers.
- 3 submarines.

On April 1st, 1911, there were under construction 10 battleships, 3 armoured cruisers, 7 protected cruisers, 3 unarmoured cruisers, 32 destroyers, and 12 submarines, of which it is expected by the end of the financial year 1911-12 there will have been completed 6 battleships, 2 armoured cruisers, 4 protected cruisers,

2 unarmoured cruisers, 29 destroyers and 6 submarines. The two floating docks for Portsmouth and the Medway respectively will also be complete by the end of the financial year 1911-12. In addition there were under construction on April 1st, 1911, two armoured cruisers, two protected cruisers, and two submarines for the Dominion Governments of Australia and New Zealand.

#### COST OF MAINTENANCE OF MODERN WARSHIPS.

Discussing the new types of battleships in the House of Commons on March 16th, 1911, when the Navy Estimates were under consideration, Mr. McKenna, the First Lord of the Admiralty, pointed first to their effectiveness. The new ships of the Programme of 1911-12 were of the type of the Orion and the Lion. In the Orion there was for the first time the type of a ship carrying 13.5 guns. She had ten such guns, all carried on the centre line of the ship. The Lion had eight guns of this type, and in speed she would be a material improvement on the Invincibles. The cost, Mr. McKenna assured the House, had not increased in anything like proportion to the increase in size and power. The average cost of the earlier Dreadnoughts was £1,710,000 each. "We often heard it said," added Mr. McKenna, "that the Dreadnought represented such a great leap in cost that the navies of the world were revolutionized and that the British Admiralty was responsible for putting naval expenditure on an entirely new scale. What were the facts? The cost of eight Dreadnoughts was exactly the same as the cost of nine King Edwards, and the upkeep of the Dreadnoughts was £50,000 a year less. Any distinguished admiral would prefer to command a fleet of eight Dreadnoughts to one of nine King Edwards, and it must be concluded that as an engine of warfare the Dreadnought was an economy."

#### THE "SCRAPPING" OF WARSHIPS.

In explaining the Estimates, Mr. McKenna took up the question of reducing the cost of the maintenance of the Navy by getting rid of older ships as the newer ones became available. It was at all times, he said, necessary to keep a close watch on the older vessels in order to scrap them when they were really not worth the cost of upkeep. In the year 1911-12 the number of the older battleships was to be reduced by seven. There were at the beginning of the year 1911-12 forty-eight pre-Dreadnoughts, and these were to be reduced before March 31st, 1912, to forty-one. It was impossible to make any forecast as to how much further scrapping would be carried in 1912-13, because this must depend on the number of older vessels retained in the foreign navies; but if the other countries followed the example of Great Britain and discarded their older ships, the Admiralty would be able to make still further reductions, as the newer Dreadnoughts came into commission. The protected cruisers would also be reduced in number. Two of them—the Powerful and the Arrogant—were to be converted into hulks. There were also numerous other vessels, submarines, destroyers, and smaller

cruisers, which from time to time would be passed out of the navy.

#### THE NATIONS' NAVIES.

The annual return of the navies of the world, which was issued on May 24th, 1911, showed the following comparison :—

From these statistics the fact emerges that as regards armoured vessels the position of Great Britain relatively to the two-Power standard shows but little change. In last year's Return the number of battleships built for Great Britain was 56, and for Germany and the United States together 63, whereas this year the numbers are 53 and 61.

#### ALLOCATION OF THE MONEY.

In the year 1910-11 the number of men and boys in the British Navy was increased by 3,000 and a similar increase—also of 3,000 men and boys—was asked of Parliament for the year 1911-12. This brings up the total personnel of the Navy to 134,000, and the following amounts are allocated in Estimates :—

Wages—Officers, seamen, boys, etc..	£7,703,000
Victualling and clothing for the Navy.....	3,233,942

#### The principal increases provided for are :—

Wages, etc.....	£122,100

There are decreases of £7,000 for martial law, £0,900 for educational services, and £12,000 for civil superannuation, etc.

As compared with ten years ago (1901-2) there is an increase in the Estimates of nearly 50 per cent., the totals being £30,931,315 and £44,392,500.

#### CARE FOR THE WELFARE OF THE MEN.

In explaining the larger amount required for wages, Mr. McKenna stated that, as a result of the consideration of the petition presented by the workmen in the dockyards in 1910, increased rates of pay had been granted to laborers and wood-caulkers. Effect had also been given to many of the recommendations of the Committee appointed to enquire into the Naval Medical Service, and close attention had been given by the Admiralty to the serious problem of tuberculosis in the Navy. An investigation had been made by the Medical Consultative Board into the means by which, under the conditions peculiar to service in the Royal Navy, tuberculosis could best be treated and its inception and spread be checked.

Arrangements were made in 1911 for the supply of trained nurses from the civil hospitals in the event of war. These nurses are to form a reserve of trained nurses, and the new force is to be known as Queen Alexandra's Royal Naval Nursing Service Reserve.

The system of detention as a form of punishment for offences under the Naval Discipline Act came into force on the Home and Mediterranean stations on January 1st, 1911; and on other Foreign stations it came into force on April 1st. The change from the first appeared to be beneficial to the service and to the men. Not only was the stigma of imprisonment removed, but the courses of drill and training through which the men are put during their terms of detention were carefully designed to make them more efficient in the naval ratings. Consequent on the change, the naval prisons at Portsmouth and Lewes have been closed, Bodmin being left as the only naval prison. It was satisfactory to note, Mr.

McKenna added, in remarking on the changes in the methods of discipline, that the number of punishments inflicted under the Naval Discipline Act continued to diminish, without in any way interfering with the high standard which is one of the best traditions of the British Royal Navy.

As regards the finding of civil employment for Naval reservists, Mr. McKenna reported that arrangements had been made with the Central Labor Exchange by which the notices of the Provincial Exchanges were displayed at the various recruiting offices; and reciprocally recruiting posters for the Royal Navy and Royal Marines were exhibited at the Labor Exchange offices. In consideration of an annual grant of £1,000 from naval funds the Navy Employment Agency undertook, with the co-operation of recruiting officers and the divisional officers of the coastguard, to extend the scope of its work in finding civil employment for Naval and Marine Reserves. During the year 1910-11 under this new arrangement, the Agency placed in permanent positions some 40 per cent. more men than in the previous year.

#### THE NAVY AND THE OVERSEA DOMINIONS.

Neither Australia nor New Zealand have as yet come to the decision to build and own a navy on the lines laid down by the late Liberal Government of Canada. The Australasian Dominions have, however, each contributed a warship to the British Navy. These battle-ships, which are in building at the Fairfield Shipyard

on the Clyde, are the *New Zealand* and the *Australia*, and both were launched during 1911—the *New Zealand* in July, and the *Australia* in October. The design of both these ships is similar to the design of the *Indefatigable* as regards armament and speed, and the displacement is 18,800 tons.

The New Zealand Government decided to defray the cost of the immediate building and arming of one first-class battleship of the latest type on March 22nd, 1909. It was also agreed to provide the cost of a second warship of the same type if subsequent events showed the necessity of such action. In the following summer the Conference on Imperial Defence, in order that the Commonwealth and New Zealand contributions, whether of money or of ships, should fit into the Imperial naval defence scheme, proposed to remodel the squadrons maintained in Far Eastern waters on the basis of a Pacific Fleet, with three units in the East Indies, Australia, and China seas respectively, each unit including a large armoured cruiser of the Indomitable type as flagship. It was suggested that for the battleships offered by New Zealand and Australia respectively battle-cruisers should be substituted, and that the former should be the flagship of the unit in China waters. The New Zealand is therefore to fulfil this duty, although it was promised by Mr. McKenna to Sir Joseph Ward that the vessel when completed should pay a visit to the Dominion of New Zealand on her way to China.

The New Zealand should be ready to leave for the Far East by September, 1912.

## MILITIA AND DEFENCE OF CANADA.

Previous to the confederation of the Provinces, the defence of this country was entirely in the hands of the Imperial Government, who for that purpose maintained troops in each Province, supported by various local volunteer militia corps. This volunteer militia had, when called upon, rendered most efficient service in times of trouble.

After Confederation the British Government gradually withdrew all the Imperial troops from this country, and at present none remain.

By the British North America Act the command in chief of all naval and military forces of and in Canada was vested in the Sovereign, and the control of the same was placed in the hands of the Dominion Parliament. A Department of Militia and Defence was at the same time established, the first Minister being Sir George E. Cartier, and the first Militia Act was passed in 1868, 31 Vic., chap. 40. The Act was subsequently amended in various ways, especially in 1904, when a new Militia Act was passed (ch. 23, 4 Ed. VII.). By it the Militia of Canada is declared to consist of all the male inhabitants of Canada of the age of 18 years or upwards and under 60, not exempted or disqualified by law, this population being divided into four classes, as follows:

The first class comprises those aged 18 or upwards and under 30, being unmarried or widowers without children.

The second class comprises those between the ages of 30 and 45, being unmarried or widowers without children.

The third class comprises those between 18 and 45, being married, or widowers with children.

The fourth class comprises those between 45 and 60.

The following persons are exempt from enrolment and active service at any time: Members of the King's Privy Council for Canada, Judges, Members of the Executive Councils of Provinces, Deputy Ministers of the Federal and Provincial Governments, clergymen and ministers of all religious denominations, professors in colleges and teachers in religious orders, the wardens and officials of all penitentiaries and lunatic asylums, persons physically disabled, and any person being the only son of a widow and her only support. Certain other persons are exempt from service except in case of war.

The Active Militia, or any portion thereof, may be ordered to drill or train for a period of not more than 30 days in each year.

The Militia is divided into Active and Reserve Forces. The Active force is composed of men raised either by voluntary enlistment or by ballot, and the Reserve force consists, practically, of the whole of the efficient men not serving in the Active Militia of the time being.

The period of service, for the Active Militia, is three years; for the Reserve Militia, such as is prescribed.

## RIFLE ASSOCIATIONS.

1. Their formation and government are laid down by regulations promulgated in Militia General Orders 88, dated June 1, 1903.

2. Are of two following classes:—

(a) *Military*—consists of persons in the Active Militia, and are managed by officers of the respective units.

(b) *Civilian*—consists of persons in the Reserve Militia, who, while members of any such club or association, are enrolled in such reserve. Are managed under such regulations as may from time to time be issued.

3. Rifle Associations organized under these regulations come under the control of the Department of Militia and Defence.

4. To form an association in a locality requires not less than forty men residing therein, and aged over sixteen years. They must be members of the Active Militia (for Military Associations); or subscribe to the oath of allegiance to His Majesty (for Civilian Associations).

5. A captain is appointed to every Civilian Association, who, with a committee of two members, manage the affairs of the association.

6. The annual subscription to be not less than \$1 each member.

7. A member may resign on three months' notice to the captain. The former must return all government property in his possession before the resignation can be accepted.

8. An association may be disbanded for grave irregularities or mismanagement.

9. A member may be expelled by a two-third vote of the association to which he belongs.

10. No man is allowed to belong to more than one association.

11. The District Officer Commanding is charged with the organization, etc., after the necessary papers have been forwarded by him, are recommended at head-

quarters and approved by the Minister of Militia and Defence.

12. An association maintaining a membership of less than forty must disband.

13. In the event of a national emergency, any person who is or has been duly enrolled in any Rifle Association in Canada shall be deemed to be already enrolled in the Reserve Militia of the Dominion.

14. *Rifle*.—The arm used is the '303 rifle, either of Government issue or of *bona fide* Government pattern, and bearing the Government viewer's mark.

15. Associations may be supplied with rifles for the use of members on the captain's requisition and on his furnishing a bond signed by three responsible members, for the safety, preservation, and safe return when required to do so, of all rifles issued to them. (*Note*.—Each rifle is valued at \$25).

16. Under the conditions of the bond, ten rifles may be issued to each association of forty members, and five additional rifles for every twenty additional members, until the stock of rifles available for this purpose be exhausted.

17. *Ammunition*.—200 rounds a year to each member of a Military Association; 100 rounds to each member of a Civilian Association; free issue.

Extra ammunition as follows:—

Lee-Enfield, per 1,000 ..... \$15.00

Miniature Cartridges, per 1,000 ..... 3.00

Regulations, published in pamphlet form, give full details and information as to organizing, etc., rifle associations; officers' duties, returns, also standard rules, instructions as to targets and marking, care of arms, rifle ranges, etc. (issued by Dept. of Militia and Defence).

When demanding ammunition on repayment, the amount should be deposited in a Canadian chartered bank, to the credit of the Receiver General, and the Deposit Receipt annexed to the requisition.

## CANADIAN TEAMS TO WIMBLEDON AND BISLEY AND OFFICERS THEREOF FROM 1872 TO 1911.

Canada has always been represented by a team of its best shots at the annual Prize Meeting of the National Rifle Association of England. The first matches were held in 1872, at Wimbledon, but since 1890 they take place at Bisley. The most coveted of all prizes, the Queen's—now the King's prize (£250), was won three times by a Canadian: Pte. T. H. Hayhurst, 13th Regt., Hamilton, Ont., in 1895, Pte. J. S. Perry, 6th Regt., D.C.O.R., Vancouver, B.C., in 1904, and Pte. W. J. Clifford, 10th Regt. (Royal Grenadiers), in 1911, who also won the Prince of Wales' prize. Many other important prizes have also been captured by Canadians. The Kolopore Cup, contested for by the Mother Country and the Colonies was won nine times by the Canadians: in 1872, '75, '81, '84, '89, '96, '05, and '09. Eight men compose the team.

## THE CANADIAN RIFLE LEAGUE.

### (HEADQUARTERS, OTTAWA, ONT.)

In 1893 the Canadian Rifle League was formed, with Headquarters at Toronto, the moving spirit and chief organizer being Lieut. W. R. Pringle, of the 10th Regiment, Royal Grenadiers. Rifle associations from all over the Dominion affiliated, and a series of simultaneous matches on given dates was inaugurated. In 1895, the Honorable the Minister of Militia and Defence granted free ammunition to the League teams, and with one exception this has been the rule since.

Four matches are held annually over King's ranges (200, 500 and 600 yards), and prizes given to the leading teams. Marksmen's certificates, signed by the Minister of Militia and Defence, and the Chief of the General Staff, are issued as follows:—

For an average of 94 points out of a possible 105, a first-class special certificate; for 90 points, a first-class certificate; for 80 points, a second-class certificate.

The competitions are divided into four series as follows:

## THE CANADIAN RIFLE LEAGUE—Continued.

The first (military) for teams of city corps of the Active Militia; the second (military) for units other than city corps; the third, or civilian series, for teams of Civilian Rifle Associations; the fourth (sections "A" and "B"), Cadet Corps. The entrance fee per team is \$10. Fees for additional teams from the same organization, \$5 each. Organizations bringing five new men to the Dominion of Canada Rifle Association Meeting get free entry for one team to the C.M.R. League competitions for the following year.

**Private Post Cards.**—The face of a Private Post Card may be used for advertisements, illustrations, etc., provided that a clear space of at least  $\frac{1}{4}$  inch is left along each of the four sides of the postage stamp, and a clear space  $\frac{3}{4}$  inches long and  $\frac{1}{4}$  inches wide reserved for the address at the lower right hand corner of the card. Private Post Cards for delivery in Canada, U.S. and Mexico, must not exceed a size of 6 inches in length by  $\frac{3}{8}$  inches in width, nor be less than  $\frac{3}{4}$  inches in length by  $\frac{1}{4}$  inches in width. Cards for other countries must not exceed  $\frac{5}{8}$  inches in length by  $\frac{3}{4}$  inches in width, nor be less than 4 inches in length by 3 inches in width. Cards of dimensions not conforming to these regulations are treated as insufficiently paid letters if they bear written communications.

**Pictorial Private Post Cards which have communications on address side.**—Cards which have the back covered by a picture, and one-half of the front to the left of the address space reserved for written communications, are admitted as post cards.

Cards bearing the title "Post Card" or its equivalent are admitted to the mails at the rate for printed matter provided they conform to the general regulations respecting printed papers.

**United Kingdom, Egypt, and British Possessions and Protectorates.**—Postage on Letters, 2 cts. per oz.

**Foreign Countries, except United States and Mexico.**—Postage on Letters, 5 cents for a letter weighing one ounce or less. For letters weighing over one ounce 5 cts. for the first ounce and 3 cts. for each subsequent ounce or fraction of an ounce.

**United States and Mexico.**—The rate on letters to the United States and Mexico is the same as in Canada, and at least one rate (2 cents) must be prepaid.

Double the deficient postage is charged on all unpaid or insufficiently paid letters for other countries except the United States. Only the deficient postage is collected on over-weight letters for the U.S., which are prepaid one rate.

**Express or Special Delivery Letters.**—Arrangements have been made for the delivery by special messenger daily, except Sunday, between 7 a.m. and 10 p.m., of letters bearing, in addition to the usual prepayment of two cents an ounce, a "Special Delivery" stamp of the value of 10 cts., or ordinary postage stamps of the value of 10 cts., and the words "Special Delivery" legibly written on the upper left hand corner of the envelope, addressed to the following cities in Canada: In Ontario—Toronto, Hamilton, London, Brantford, Kingston, Peterboro', Guelph, Stratford, Windsor, Chatham, Berlin, St. Catharines, Sarnia, St. Thomas, Fort William, Port Arthur, Owen Sound, Niagara Falls, Brookville and Ottawa; in Quebec—Montreal, Sherbrooke, St. Hyacinthe, Trois Rivières, Hull and Quebec; in New Brunswick—St. John, Moncton and Fredericton; in Nova Scotia—Halifax and Sydney; in Manitoba—Winnipeg and Brandon; in Saskatchewan—Regina, Saskatoon, and Moose Jaw; in Alberta—Calgary, Leth-

bridge and Edmonton; in British Columbia—Victoria, New Westminster and Vancouver; in P. E. Island—Charlottetown. The "Special Delivery" stamp of the value of ten cents may be obtained at any Money Order post office.

Fully paid registered letters bearing "Special Delivery" stamps or ordinary stamps of the value of 10 cts., in addition to the postage and registration fee and the words "Special Delivery," come under the operations of this scheme of special delivery.

## Registration.

Persons posting letters containing value should be careful to require them to be Registered, and to obtain from the Postmaster a certificate of receipt for Registration. The charge for Registration in addition to the Postage is, on all classes of matter, five cents.

Both the Postage charge and Registration fee should, in all cases, be prepaid by stamp.

Registration is not an absolute guarantee against the miscarriage or loss of a letter; but a Registered Letter can be traced where an Unregistered Letter can not, and the posting and delivery or non-delivery can be proven.

## Indemnity for Registered Articles.

**Domestic.**—(1) In case of the loss in the Postal Service of a registered article posted in Canada for delivery in Canada the addressee, or at the request of the addressee, the sender, is entitled to an indemnity, which in no case shall exceed twenty-five dollars, or the actual value of the lost registered article when the same is less than twenty-five dollars, provided no other compensation or reimbursement has been made therefor.

(2) The indemnity will be paid, provided the loss of the registered article is reported to the Department within one year of the date of posting, upon receipt of sworn statements of the persons concerned,—

(a) that according to the best of knowledge and belief the registered article has been lost in the mails.

(b) as regards the value of the contents of the lost registered article.

(c) as regards the ownership of the same.

(3) No indemnity is given for a registered article which has not been entirely lost in the mails.

(4) No indemnity is given for an article upon which the registration fee has not been paid.

**British and Foreign.**—Except in cases beyond control (e.g., tempest, shipwreck, earthquake, and war), the Postal Administrations of all countries and Colonies included in the Postal Union undertake to pay an indemnity of 50 francs (\$10) when it is proved to their satisfaction that a letter or packet duly admitted to Registration has been entirely lost whilst in their custody.

## Newspapers and Periodicals.

The general postage rate on newspapers and periodicals published in Canada not less frequently than once a month, and addressed to regular subscribers in Canada, Mexico, the United Kingdom, the Bahamas, Barbados, Bermuda, British Guiana, British Honduras, British North Borneo, Ceylon, Cyprus, Falkland Islands, Fiji, Gambia, Gibraltar, Hong Kong, Jamaica, Leeward Islands, Malta, Mauritius, New Zealand, Northern Nigeria, Sarawak, Seychelles, Sierra Leone, Southern Nigeria, Transvaal, Trinidad and Tobago, Turk's Islands, Zanzibar, and Newfoundland, and to newsdealers in Canada, is fixed by law at  $\frac{1}{4}$  cent per pound. The following exception, however, is to be noted: Newspapers and periodicals published not more frequently than once a week and not less frequently than once a month, are entitled to pass free to regular subscribers and newsdealers in Canada within a circular area of 80 miles in diameter, having as centre either the place of publica-

tion or any established Post Office not more than 40 miles distant therefrom, the choice of a centre within these limits resting with the publisher; and such newspapers and periodicals are to be put up into packages and delivered into the Post Office, under such regulations as the Postmaster-General may from time to time make.

Copies of legitimate daily newspapers can be mailed by the publishers in Canada to regular subscribers and newsdealers in the United States on prepayment in cash at the rate of 1 cent per pound or fraction thereof and other newspapers and periodicals sent to the United States either by publishers or other individuals are subject to the rate of 1 cent per 4 ounces.

The postage on *bona fide* specimen newspapers, and on papers and periodicals published less frequently than once a month, is 1 cent per lb.

British and foreign publications may be posted by newsdealers in Canada to subscribers in Canada at the rate of 1 cent per lb. They cannot however be posted at that rate for local delivery at places where there is a free letter carrier service.

### Transient Newspapers.

Transient newspapers and periodicals include all newspapers and periodicals posted in Canada, *other than Canadian newspapers sent from the office of publication, and British and foreign newspapers posted by news agents for regular subscribers in Canada.* When addressed to any place within the Dominion, the United States or Mexico, and, when published in Canada, and addressed to any place in the United Kingdom, Bahamas, Barbados, Bermuda, British Guiana, British Honduras, British North Borneo, Ceylon, Cyprus, Falkland Islands, Fiji, Gambia, Gibraltar, Hong Kong, Jamaica, Leeward Islands, Malta, Mauritius, New Zealand, Newfoundland, Northern Nigeria, Sarawak, Seychelles, Sierra Leone, Southern Nigeria, Transvaal, Trinidad and Tobago, Turk's Islands or Zanzibar, they must be prepaid the following rate by Postage Stamp:—

One cent per four oz. or fraction of four oz.

Transient newspapers and periodicals not published in Canada are subject to the ordinary printed matter rate of 1 cent per 2 ozs. when addressed to the United Kingdom or British Colonies.

### Book Post, &c.

A Book Packet may contain any number of separate books. Limit of weight for domestic post, 5 lbs. (unless consisting of a single book, in which case a weight of 10 lbs. is allowed); for foreign post, 4 lbs. 6 ozs. Limit of size, domestic: 30 inches in length by 1 foot in width or depth; foreign: eighteen inches in any direction, unless in the form of a roll, when a length of 30 inches is allowed provided the diameter does not exceed 4 inches.

Book packets must be open at *both ends or both sides*, and must not contain any letter or sealed inclosure.

Books for the use of the blind are free of Canada postage, and correspondence passing between blind persons in raised characters is chargeable at the rate of 1 cent per 2 ozs.

The rate on Book Packets for delivery in Canada, Great Britain, the United States and all Postal Union Countries, is 1 cent per 2 ozs.

### Certain Miscellaneous Matter.

Miscellaneous matter, described as under, may pass between places in the Dominion of Canada upon prepayment of the rates indicated below. The regulations do not admit of the transmission by mail to the United Kingdom (or other countries beyond the sea) of miscellaneous matter as such; but a great part of the matter referred to under that head may be forwarded to the United Kingdom and other countries by Book Post:—

Matter (other than newspapers and periodicals), wholly in print without reference to process, such as circulars, catalogues, calendars, hand-bills, books, pamphlets, printed forms, maps, prints, drawings, plans (without written specifications) engravings, lithographs, photographs (when not on glass or in cases containing glass, official or private post cards in quantities, sheet music (whether printed or written) instruction books in music,

visiting cards, the manuscript of books or newspapers (whether hand-written or type-written) indented or perforated sheets of paper containing characters which can be read by the blind, botanical entomological and mineralogical specimens and the following partly-written and partly-printed matter:—militia and school returns, customs manifests, voters' lists, school or college examination papers, printers' proof sheets with corrections, exhibition entry tickets, municipal assessment rolls, Dominion and Provincial Government returns on official blanks, and all Dominion and Provincial Government documents, statute law returns and municipal returns in general, etc., on which the rate of postage is 1 cent for each 2 ozs. or fraction thereof. To come within this class the material printed upon must be either paper, cardboard or parchment.

The following articles are subject to the rate of 2 cents for the first 4 ozs. or fraction thereof, and one cent for each additional 4 ozs.:—Seeds, cuttings (but not cut flowers), roots, bedding plants, scions or grafts.

Writing paper specially prepared for the use of the blind transmitted from a recognized Institution for the Blind in Canada to blind persons for their own use is allowed to pass at the rate of 1 cent for each 4 ozs. or fraction thereof; but before any Institution can post such paper at the above rate the Post Office Department at Ottawa must be satisfied as to its claim to be considered an Institution for the Blind.

No letter or other communication intended to serve the purpose of a letter must be sent or inclosed in any such package or thing mentioned, and the same must be sent in covers open at the ends or sides, or otherwise so put up as to admit of the contents being, if necessary, easily withdrawn for examination by the officers of the Post Office to ensure compliance with this provision (if inclosed in sealed envelopes notched at the ends or sides, or with the corners cut off, letter rate of postage will be charged).

No packet of miscellaneous matter can be transmitted by mail if it exceeds 5 lbs. in weight, 30 inches in length or 12 inches in width or depth, nor may the combined length and girth of any packet exceed 6 feet.

Legal and commercial papers generally are liable to *letter rate* of postage when posted for delivery within the Dominion of Canada.

Printed or written *requests for return* are recognized on 3rd and 4th class matter, addressed to places within the Dominion, and same will be *returned direct to the sender*, subject to the payment by the sender, on delivery to him through the Post Office, of the full amount of postage to which the article was in the first place liable, together with any charges rated thereon on account of any deficiency in the original prepayment.

### British and Foreign Post—Commercial Papers.

"Commercial Papers" are understood to comprise all papers or documents written or drawn wholly or partly by hand (except letters or communications of the nature of letters or other papers or documents having the character of an actual and personal correspondence), documents of legal procedure, deeds drawn up by public functionaries, copies of or extracts from deeds under private seal and (whether written or printed on stamped or unstamped paper) way bills, bills of lading, invoices and other documents of a mercantile character, documents of insurance and other public companies, all kinds of manuscript music, the manuscript of books and other literary works, also open letters and post cards of ancient date which have already fulfilled their original purpose and pupils' exercises in original and corrected form but without any comment on the work. The rate is 1 cent per 2 ozs., but each packet must have a minimum prepayment of 5 cents; this prepayment will cover a weight of 10 ozs. No packet must exceed 18 inches in any direction unless in the form of a roll, when a length of 30 inches is allowed, provided the diameter does not exceed 4 inches. The weight must not exceed 4 lbs. 6 ozs.

### Samples within the Dominion.

Samples of Merchandise and Goods for sale, not having saleable value and not exceeding 3 lbs. in weight, except samples of tea, which must not exceed 8 oz. in weight, may be posted in Canada, to be forwarded to

any place within the Dominion, on prepayment by Postage Stamp of a rate of 1 cent for each 2 ozs. or fraction thereof under the following regulations:

If insufficiently prepaid the packet will be forwarded charged with double the deficient postage, provided at least 1 cent is prepaid.

Packages of Samples addressed to any place in Canada, may be registered by affixing thereto stamps to the value of 5 cents in addition to the postage rate, and provided such packet be handed into the Post Office for registration.

Samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds drugs, &c., which cannot be sent in open covers, may be enclosed in bags of linen, or such like material, fastened in such a manner that they may be readily opened.

The packet may bear on the *outside* the address of the sender, in addition to the address of the person for whom it may be intended; and also a trade mark or number, and the price of the sample enclosed; *inside*, there must be no enclosure but the samples themselves. The particulars, however, of the trade marks, numbers, and prices may be marked on the articles themselves instead of on the outside of the packet, at the option of the sender.

Articles of saleable value even when intended to serve as samples are not admissible at sample rate.

Goods sent for sale or in execution of an order, however small the quantity may be, or any article sent by one private individual to another, which are not actually trade samples, are not admissible.

Liquids, oils, &c., may be sent by mail in the Dominion if put up carefully in strict accordance with the directions given in the Postal Guide and ascertainable at any post office.

#### Samples for United Kingdom, United States and Foreign Countries.

Samples of Merchandise, when addressed to places in the United Kingdom, must not exceed 5 lbs. in weight; to the United States and other foreign countries, 12 oz.; and must be prepaid by postage stamp at the following rates:—1 cent per 2 oz. or fraction of 2 oz., with a minimum prepayment of 2 cents covering a weight of 4 oz.

Samples of liquids, oils, glass, &c., are admitted as samples provided they are put up in strict accordance with the directions given in the Postal Guide.

#### Prohibited Articles.

All explosive, dangerous or destructive substances, glass bottles or glass in any form liable to break, and all matter subject to speedy decay, all obscene or immoral books, publications, pictures, &c., libellous post cards and letters the covers of which bear words of an offensive character, and letters and circulars relating to illegal lotteries or other fraudulent schemes.

#### Useful Hints.

Register all valuable letters. Transmit money by Postal Notes or Money Orders. Make complaints and inquiries in writing, and address the Postmaster-General at Ottawa. Preserve, and request correspondents to preserve, envelopes of missent or delayed letters. Send to the Postmaster-General envelopes of letters about which you seek information or make complaint. In addressing letters add the name of the *County and Province* in which the office addressed is located. Place stamp on the right-hand upper corner of the address side. Put your own name and full address in or on letter, to insure return if it cannot be delivered. In affixing postage stamps moisten the envelope, *not the stamp*. When stamps are moistened the gum is apt to be removed.

#### Fourth Class Matter.—(Merchandise).

Postage rate 1 cent per ounce or fraction thereof, to be prepaid by postage stamp. This class comprises miscellaneous articles of merchandise, (including seeds, bulbs, &c., to United States) addressed to any destination within the Dominion or the United States. Fourth class matter must be so packed or put up as to be open to

examination of contents and must not exceed 5 lbs. in weight, when intended for places in the Dominion, or 4 lbs. 6 ozs. when intended for the United States. The limit of size is 30 inches in length by 1 foot in width or depth, but the combined length and girth of any packet must in no case exceed 6 feet. When passing between Canada and the United States it will be subject to Customs regulations if liable to duty. The registration charge on 4th class matter is 5 cents in addition to postage.

A packet of 4th class matter may contain invoices and accounts, provided they relate exclusively to the contents of such packet; it is also permitted to enclose a card or slip of paper giving in a brief manner necessary directions for the identification or treatment of the article or articles contained in the packet. Care must be taken not to abuse this privilege by converting such notes or marks, designed solely for the facilitation of business between the sender and the addressee, into what might properly be called correspondence. A packet of 4th class matter containing a letter or any writing intended to serve the purpose of a letter in the ordinary sense will become liable to letter postage, and the sender will incur the penalty provided by law.

When several separate articles are enclosed in a packet of 4th class matter, there is no objection to each bearing a distinguishing number, so as to enable the sender to give directions by letter (sent of course separately and duly prepaid) respecting the several articles which the packet contains.

#### Parcel Post with the United Kingdom, Newfoundland and other British Colonies and Foreign Countries.

Closed parcels may be exchanged with the United Kingdom, Newfoundland and most foreign countries and British colonies under the following Regulations:—

1. Every Parcel must be fully prepaid by postage stamps.

2. The dimensions of a Parcel addressed to the United Kingdom must not as a general rule exceed 30 inches in length or 1 foot in width or depth, nor must the combined length and girth of any parcel exceed 6 feet, a length of 3 feet 6 inches is allowed, however, in the case of parcels containing articles such as golf sticks, umbrellas, &c. The dimensions of a Parcel addressed to any country other than the United Kingdom must not exceed 2 feet in length by 1 foot in width or depth.

3. A Parcel must not contain a letter or any writing in the form of a letter, or any explosive, combustible, or dangerous articles.

4. All Parcels must be securely and substantially packed and closed.

5. Oils, liquids, &c., can only be forwarded if put up with the same security required in connection with their transmission as samples in the ordinary mails. Fragile articles should be packed with special care.

6. Each Parcel must be plainly directed, and such direction must include the name and full address of the person for whom the parcel is intended.

7. For each Parcel the sender must fill up a Customs Declaration. On this form the sender will supply an accurate statement of the contents and value of the Parcel; also the address thereof, with signature and place of abode of the sender. The Customs Declaration must be securely affixed by mucilage or paste to the parcel to which it relates.

Parcels from the United Kingdom or any other place beyond the Dominion will be liable to Canadian Customs duties, and under existing regulations must be examined for the purpose by an Officer of the Customs in the presence of the persons addressed.

Rates and limits of weight vary. See Postal Guide, or enquire at Post Office.

Parcels must be handed to the Postmaster; in no case should they be dropped into a letter box or other receptacle for mail matter.

The thanks of the publishers are due to E. W. Bullinger, Esq., for his kind permission to use "Bullinger's Postal and Shippers' Guide for the United States and Canada" in the preparation of the following list:—

For list of Companions of the Imperial Service order, see page 279.

The Order of Baronets, the lowest hereditary rank, was instituted in 1611; a Baronet is designated "Sir John Smith, Baronet"—usually written Bart. Taking precedence of Baronets are members of The Most Honourable Privy Council, who are addressed "Right Honourable."

The Order of the Bath, instituted in 1399, and revived in 1725, is divided into three classes—Knights Grand Cross, G.C.B.; Knights Commanders, K.C.B.; and Companions, C.B.

The Order of St. Michael and St. George, instituted in 1818, has also three classes—G.C.M.G., K.C.M.G., and C.M.G.

The Royal Victorian Order, instituted in 1896, has five classes—G.C.V.O., K.C.V.O., C.V.O. Members 4th and 5th classes—M.V.O.

In all Orders of Knighthood the Knights Grand Cross and the Knights Commanders have the prefix "Sir" with the initials of their class following the name. Companions and Members bear no title, but have the letters C.B., C.M.G., M.V.O., as the case may be, attached to their names.

Knights Bachelors are gentlemen unconnected with any order who have received the honour of Knighthood, and are entitled to the prefix "Sir" and to "Knt." after name. They wear no insignia, and rank immediately after Knights Commander of the Victorian Order.

It follows that members of any order of Knighthood may be entitled to several prefixes and affixes, as: Field Marshal The Rt. Hon. Earl Roberts of Kandahar, Pretoria, and Waterloo, K.G., K.P., G.C.B., G.C.S.I., G.C.I.E., V.C.; The Rt. Hon. Sir Wilfrid Laurier, G.C.M.G.; The Hon. Sir C. Tupper, Bart, G.C.M.G., C.B.

## THE IMPERIAL SERVICE ORDER.

This civil order of distinction was instituted by King Edward VII, August 8, 1902, to more fully recognize the faithful and meritorious services rendered by members of the Civil Services of the various parts of the Empire. The following is a synopsis of the statutes relating thereto:—

(a) Name.—The Imperial Service Order.

(b) Consists of the Sovereign, the Prince of Wales, and such Companions as may be appointed.

(c) Only members of the administrative or clerical branches of Civil Services are eligible to Companionships.

(d) Number of Companions.—Limited to 425, of whom 250 for the home Civil Service and 175 for Civil Services of Colonies and Protectorates.

(e) Eligibility.—At least twenty-five years' meritorious service. In Colonies or Protectorates recognized as unhealthy, it is reduced to sixteen years. The periods are not compulsory in special cases of *eminently* meritorious service.

(f) Description of decoration.—A badge or medallion of gold and enamel, bearing on one side the Imperial and Royal Cypher, and on the reverse "For Faithful Service," both in dark blue enamel on a plaque or shield of Gold, surrounded by a wreath of laurel, surmounted by the Imperial Crown.

(g) Decoration to be worn on left breast suspended by a ribbon one inch wide.

(h) Names of those upon whom the decoration is conferred will be published in the *London Gazette*.

(i) Companions have the privilege of adding the letters "I.S.O." after their names.

(j) Members of this order are not deprived of eligibility to other orders of knighthood, and *vice versa*.

### THE IMPERIAL SERVICE MEDAL.

It is also provided that members not eligible for companionships in the Imperial Service Order may, on retirement after service of twenty-five years or sixteen years, as above explained, receive the "Imperial Service Medal," which is of silver and of a design similar to that of the badge of Companions of the Imperial Service Order. ## PATENTS IN CANADA.

The Patent Office is a Branch of the Department of Agriculture, and the Minister of Agriculture for the time being is the Commissioner of Patents.

Any person who has invented any new and useful art, machine, manufacture or composition of matter, or any new and useful improvement in any art, machine, manufacture or composition of matter, which was not known or used by any other person before his invention thereof, and which has not been in public use or sale with the consent or allowance of the inventor thereof for more than one year previously to his application for patent therefor in Canada, may, on a petition to that effect, presented to the Commissioner, and on compliance with the other requirements of the Act, obtain a patent granting to such person an exclusive property in such invention.

No patent shall issue for an invention which has an illicit object in view, or for any mere scientific principle or abstract theorem.

Any person who has invented any improvement on any patented invention, may obtain a patent for such improvement; but he shall not thereby obtain the right of vending or using the original invention, nor shall the patent for the original invention confer the right of vending or using the patented improvement.

The Patentee or his legal representatives must, within two years from the date of the patent or an authorized extension thereof, commence and continuously carry on in Canada the construction or manufacture of the invention patented in such manner that any person desiring to use it may obtain it, or cause it to be made for him at a reasonable price at some manufactory or establishment for making or constructing it in Canada. If after twelve months from the granting of the patent, or an authorized extension thereof, the Patentee or his legal representatives imports, or causes to be imported, into Canada the invention for which the patent is granted, such patent shall be void as to the interest of the person so importing.

The Commissioner, upon satisfactory cause being shown, may grant to the Patentee or his legal representatives an extension for a further term not exceeding one year beyond the twelve months during which he may import into Canada the invention; such application must be made within three months before the expiry of the said twelve months.

An Inventor obtaining a patent for his invention in a foreign country before obtaining a Canadian patent, may obtain the latter if same be applied for within one year from the date of the issue of the first foreign patent; and if within three months after the date of issue of a foreign patent the Inventor gives notice to the Commissioner of his intention to apply for a Canadian Patent for such invention, then no other person having commenced to manufacture the same device in Canada during such period of one year shall be entitled to continue the manufacture of the same after the Canadian patent has been obtained without the consent or allowance of the inventor.

Upon application for a patent, or within six months after issue of the patent, the Commissioner may order that, instead of the above provisions as to manufacture in Canada within two years, such patent shall be subject to the following conditions:—Any person, while the patent continues in force, may apply to the Commissioner for a license to make, construct, use and sell the patented invention, and if the Commissioner is satisfied that the reasonable requirements of the public have not been satisfied by reason of the neglect or refusal of the Patentee or his legal representatives to make, construct, use or sell the invention, or to grant licenses for so doing to others on reasonable terms, he may make an order under his hand and the seal of the Patent Office requiring the owner of the patent to grant a license to the person applying therefor upon such terms as to royalties, etc., as the Commissioner deems just, and if the Commissioner makes such an order, and the owner of the Patent refuses or neglects to comply therewith within three Calendar months after a copy of it is addressed to him or to his duly authorized agent, the patent and all rights and privileges thereby granted shall cease and determine.

An application for a patent is made by a petition wherein the title or name of the invention is set forth, and in which the applicant declares that he is the inventor of the invention, as well as placing his domicile at some known and specified place in Canada, and such petition must be verified by affidavit or affirmation of the applicant that he believes he is the inventor of the said invention, and that the statements in the petition are true. Should the inventor be dead, such oath or affirmation may be made by his assignee or legal representative, and with the petition must be filed a specification (in duplicate) of the invention which shall correctly and fully describe the mode of operating same, the contrivances and things claimed as new, and for the use of which exclusive property and privilege is claimed, and shall bear the name of the place where, and date when, made, and shall be signed by the applicant and by two witnesses. In the case of a machine, the specification shall fully explain the principle and several modes in which it is intended to apply, and work out the same; and where the invention admits of illustration by means of drawings, the applicant shall also send in drawings in duplicate, showing clearly all parts of the invention. In all cases in which the invention admits of representation by model, the applicant, if required by the Commissioner, shall also furnish a model of convenient size; and when the invention is a composition of matter, the applicant shall also, on like request, furnish specimens of the ingredients and composition sufficient in quantity for the purpose of experiment.

In the case of conflicting applications for any patent, provision is made for submitting same to the arbitration of three skilled persons, two of whom shall be chosen by the applicants and the third by the Commissioner, and the decision or award in writing of such arbitrators, or of any two of them, shall be final.

A patent is granted for a term of eighteen years, but at the time of the application it is optional for the applicant to pay the fee for the term of six years, or twelve years only, as desired, and, unless further renewal payments are made, the patent expires on such dates respectively.

The patent may be assigned, but unless same duly registered in the Patent Office shall be null and void as against any subsequent assignee.

Every person who, without the consent in writing of the Patentee, makes, constructs, or puts into practice any invention for which a patent has been obtained, or who procures such invention from any person not authorized by the patentee, and who uses it, shall be liable to the patentee, or his legal representative, in damages.

Any action for infringement of the patent may be brought in any Court of record having jurisdiction to the amount of the damages claimed in the Province in which the infringement is alleged to have taken place. Proceedings may also be taken in the Exchequer Court, which has jurisdiction over the entire Dominion of Canada.

Every patentee shall stamp or engrave on each patented article sold or offered for sale by him the year of the date of the patent of such article, thus:—"Patented 1898," or as the case may be; or when, from the nature of the article, this cannot be done, then by affixing to it, or to every package where one or more of such articles is or are enclosed, a label marked with a like notice. For violation of this provision there is imposed a penalty not exceeding \$100.00, and, in default

of payment thereof, imprisonment for a term not exceeding two months.

Falsely marking an article as patented with the intent of counterfeiting or imitating the stamp, mark, or device of the patent of another person, or of deceiving the public, or offering for sale as patented any article not patented in Canada, is a misdemeanour, and for which there is a fine not exceeding \$200.00, or imprisonment for a term not exceeding three months, or both.

Any intending applicant for a patent who has not yet perfected his invention, and is in fear of being despoiled of his idea, may file in the Patent Office a description of his invention so far, with or without plans, of his own will, and the Commissioner, on payment of the prescribed fee, shall cause the said document, which shall be called a caveat, to be preserved in secrecy, and, if application is made by any other person for a patent interfering in any way therewith, the Commissioner shall forthwith give notice, by mail, of such application to the person filing such caveat, who shall, within three months thereafter, if he wishes to avail himself of the caveat, file his petition, and take the other steps necessary on an application for a patent. The application for the patent must be made within one year from filing of caveat, otherwise the Commissioner is relieved from the obligation of giving notice.

The Government of Canada may, at any time, use any patented invention by paying to the Patentee such sum as the Commissioner reports to be a reasonable compensation for the use thereof.

# THE BRITISH GOVERNMENT.

## THE ASQUITH ADMINISTRATION.

After the General Election of January, 1910, there was a reorganization of the Asquith Ministry. The most important changes were those at the Home Office and the Board of Trade due to the appointment of Viscount Gladstone to the Governor-Generalship of the new Union of South Africa. There was, however, much less change in the personnel of the Cabinet after the General Election, than there was in that of the House of Commons, where the Liberal majority over the Unionists alone had sunk to two.

### THE OFFICE OF PRIME MINISTER.

By Royal Warrant dated December 6th, 1905, an important change was made in the status of the Prime Minister. Until 1894 the office of Prime Minister, although it had existed for so long, had no official recognition. "Departmentally," Mr. Gladstone once wrote in reference to the Prime Minister, "he is no more than the first-named of five persons by whom jointly the powers of the Local Treasurerships are to be exercised. He is not their master, or otherwise than by mere priority their head, and he has no special function or prerogative under the formal constitution of the office. He has no official rank, except that of Privy Councillor. Eight members of the Cabinet, including five Secretaries of State and several other members of the Government, take official precedence of him. His rights and duties as head of the administration are nowhere recorded. He is almost, if not altogether, unknown to the statute law."

The first official recognition of the office came on March 3rd, 1894, when the "Court Circular" stated that Queen Victoria had offered to the Earl of Rosebery the "post of Prime Minister, vacated by the Right Hon. W. E. Gladstone, M.P." Even after this first official recognition the precedence of the Prime Minister was not determined; and there was no determination of his precedence until the Royal Warrant of December 6th, 1905, which announced "our Royal will and pleasure that in all times hereafter the Prime Minister of us, our heirs and successors, shall have precedence next after the Archbishop of York." Consequently the Prime Minister now has his place between the Archbishop of York and the Lord Chancellor of Ireland, and precedence over every member of his Government except the Lord Chancellor.

### THE GOVERNMENT DEPARTMENTS.

#### THE TREASURY.

*Chancellor of the Exchequer*—Rt. Hon. D. Lloyd George.

*First Lord of the Treasury*—Rt. Hon. Herbert Asquith.

*Financial Secretary to the Treasury*—Rt. Hon. T. McKinnon Wood.

*Patronage Secretary to the Treasury*—Master of Elibank.

*Junior Lords of the Treasury*—Mr. W. Wedgwood Benn, Mr. J. W. Gulland, Mr. P. Illingworth, Mr. William Jones, Hon. Fred. Guest.

The Treasury, of which the Chancellor of the Exchequer is the political head, provides the means for meeting the charges for the military, naval, and civil services. The Parliamentary heads of each of the spending and administrative departments of the Government are responsible for the estimates for their respective departments; but it is the duty of the Chancellor of the Exchequer, with the permanent Secretary of the Treasury, to check all these estimates before they are submitted to the House of Commons in Committee of Supply. The Cabinet becomes responsible for estimates which have been submitted to Parliament, and the rejection or reduction of an estimate by the House of Commons is tantamount to a defeat of the Government. The duties which bring the Chancellor of the Exchequer most prominently before the country, are those in connection with the Budget. The first Lord of the Treasury is one of its Parliamentary heads; but the duties of the first Lord are little more than nominal, and the office is usually held by the Leader of the House of Commons. The Patronage Secretary to the Treasury is the official title of the Government whip in the House of Commons. The Junior Lords are his assistants. The Financial Secretary represents the Treasury in the House of Commons.

## THE FOREIGN OFFICE.

*Secretary of State for Foreign Affairs*—Sir Edward Grey.  
*Under Secretary*—Mr. F. D. Acland.

All diplomatic intercourse is conducted by the Secretary of State for Foreign Affairs, who is usually of the House of Lords. The office is next in rank and importance to that of Premier, and is sometimes held in conjunction with that office. Ambassadors and consuls receive their instructions from the Foreign Office. Foreign ambassadors in London have their audiences with the Secretary of State, and he also conducts the negotiations for international treaties. The Under Secretary represents the Department in the House of Commons.

## THE COLONIAL OFFICE.

*Secretary of State for the Colonies*—Rt. Hon. Lewis Harcourt.

*Under Secretary*—Lord Emmott.

The Colonial Office dates back to 1660, when a Committee of the Privy Council was appointed for the Plantations, as the Colonies were then called. This Council was continued until 1768, when colonial affairs were placed under the control of a Secretary of State. When the United States secured their independence in 1783, the office of Colonial Secretary was abolished, and colonial affairs were managed from the Home Office. In 1794 the colonies were placed under the care of the Secretary at War. This arrangement was continued until 1854, when the War Department was reconstructed, and separate Secretariats of State were established for War and for the Colonies. The colonies are divided into three classes. In the first are the Crown colonies, in which the Crown has entire control of legislation, and which are administered from the Colonial office. India and Cyprus are examples of Crown Colonies. In the second class are the colonies with representative institutions, but not responsible government. In these the Crown has a veto on legislation and retains control of the public offices. Such colonies are Ceylon and Jamaica. The third class includes the colonies having responsible government, such as Canada and the Australasian colonies. Since August, 1907, the Colonial Office has been organized in 3 departments (1) Dominion Department, concerned exclusively with the self-governing colonies; (2) Crown Department concerned with Crown Colonies; and (3) Department having charge of legal and financial business. There was then appointed a Permanent Secretary for the Imperial Conference—Mr. H. W. Just being the first holder of the Office.

## THE INDIA OFFICE.

*Secretary of State for India*—Marquis of Crewe.

*Under Secretary*—Mr. E. S. Montagu.

The India Office in its present form dates from 1858, when an Act of Parliament was passed which directed that all the powers and duties hitherto exercised by the old East India Company, or the old Board of Control, should in future be exercised and performed by one of His Majesty's Principal Secretaries of State. At the same time there was established a council to assist the Secretary for India. It consists of not less than ten members nominated by the Secretary. The majority of these members must be men who have served or resided ten years in India, and have not left India more than ten years previous to the date of their appointment. Members hold office for ten years, and under the direction of the Secretary for India, conduct all the business transacted in London in relation to the government of India.

## THE HOME OFFICE.

*Secretary of State for Home Affairs*—Rt. Hon. Reginald McKenna.

*Under Secretary*—Mr. C. F. G. Masterman.

The Home Department has the control of the London police force, and also the oversight of the police forces in the counties and municipal boroughs; and, generally speaking, the Department is responsible for the internal peace of the country. Prisons, convict establishments, criminal lunatic asylums, executions, and all matters connected with the post-judicial execution of the criminal law, come within the purview of the Home Office. It is also responsible for the administration of the factory code, and the laws relating to mining.

## THE WAR OFFICE.

*Secretary of State for War*—Viscount Haldane, K.C.

*Under Secretary*—Colonel Seeley.

*Financial Secretary to the War Office*—Mr. H. J. Tennant.

The Secretary for War has control of the army at home and abroad, and is responsible for its efficiency to the Sovereign and to Parliament. He directs all movements of troops, and all appointments made by the Commander-in-Chief are subject to his approval.

## THE ADMIRALTY.

*First Lord of the Admiralty*—Rt. Hon. Winston S. Churchill.

*Secretary to the Admiralty*—Dr. T. J. Macnamara.

The Admiralty, which has charge of the Royal Navy, is administered by Lords Commissioners. The head of the Department, who is always of the Cabinet, is known as the First Lord of the Admiralty. The other Lords Commissioners or Junior Lords are officers without seats in Parliament, and are respectively at the heads of the departments into which the Admiralty is divided. The foreign movements of ships are at the instance of the Cabinet, the Foreign Office, and the Colonial Office, and it is from these authorities that the Lords of the Admiralty receive their orders. In time of war the orders go from the Cabinet. At other times the movements of vessels are directed by the Foreign Office and the Colonial Office.

## THE BOARD OF EDUCATION.

*President*—Rt. Hon. J. A. Pease.

*Secretary*—Mr. C. P. Trevelyan.

The Education Department exercises supervision over the various departments of state-aided education, and distributes the grants for education annually made by Parliament. These grants date from 1833; and in 1839 the Committee of Council for Education was established. The Vice-President was always of the House of Commons, and he was practically the Minister of Education. On the 1st of April, 1900, the Committee of Council for Education came to an end, and the powers it had exercised since 1839, enormously increased, however, since 1870, were transferred to a new State Department known as the Board of Education. The new Board was created under an Act of Parliament passed in the ordinary session of 1899. It consists of a President, the Principal Secretaries of State (these are the Secretaries for Foreign Affairs, for Colonial Affairs, for the Home Department, for War, and for India), the First Commissioner of the Treasury, and the Chancellor of the Exchequer. With the creation of this new Board there was for the first time a direct and general connection between the Government and secondary schools in England. Heretofore the Committee of Council had been concerned chiefly with elementary education, except as regards the Science and Art Department. Now, however, inspectors representing the Board of Education may visit the secondary schools, and a connection is established between these schools and the municipal councils. With the new Board of Education there was also created a Consultative Committee, which was to keep a register of teachers, and advise the Board on any matters referred to it. Universities and other bodies concerned in education are represented on the Consultative Committee. At the formation of the Balfour Government in 1902, and the retirement of Sir J. Gorst, Vice-President, the Marquis of Londonderry became the first President of the Board and Sir W. R. Anson the first Secretary.

## THE LOCAL GOVERNMENT BOARD.

*President of the Local Government Board*—Rt. Hon. John Burns.

*Parliamentary Secretary to the Local Government Board*—Mr. J. H. Lewis.

This Department dates from the reform of the Poor Law in 1834. From 1834 to 1847 its chief was not of the Ministry nor in Parliament. Up to 1871 it was occupied exclusively with the administration of the Poor Law. In 1871 it took over from the Home Department numerous duties in connection with municipal government and public health, and its title was changed to the Local Government Board.

## THE BOARD OF TRADE.

*President of the Board of Trade*—Rt. Hon. Sydney Buxton.

*Parliamentary Secretary to the Board of Trade*—Mr. J. M. Robertson.

The Board of Trade is in charge of the administration of the laws relating to limited liability companies, to bankruptcy; and it also has the oversight of all matters connected with the mercantile marine, harbours, canals, railways, and street car lines and electric lighting. The Labour Bureau is a department of the Board of Trade. Its work is confined to the collection and compilation of information of all kinds relating to labour. The Board of Trade also collects information relating to trade and commerce abroad.

#### THE POST OFFICE.

*Postmaster-General*—Rt. Hon. H. L. Samuel.

The Post Office in England controls the telegraphs, as well as the home and foreign mail departments. The telegraphs have been a Government undertaking since 1869. The Post Office savings banks, of which there are over 12,000, receive sums up to a maximum of £50 in one year, or £200 in all. They also do a life insurance, and an annuity business on lines intended to meet the needs and convenience of the working classes.

#### THE BOARD OF AGRICULTURE.

*President of the Board of Agriculture*—Rt. Hon. Walter Runciman.

*Parliamentary Secretary to the Board of Agriculture*—Lord Lucas.

The principal duties of this Department are the administration of the laws for preventing and stamping out cattle disease. It supervises the landing of live cattle imported from abroad.

#### OFFICE OF PUBLIC WORKS AND BUILDINGS.

*First Commissioner of Works*—Earl Beauchamp.

This Department has the custody and supervision of all Royal Palaces and parks, and also of buildings such as the Houses of Parliament, the Palace at Westminster, the Law Courts, and the public offices at Whitehall.

#### DEPARTMENT OF THE LORD CHAMBERLAIN.

*Lord Chamberlain*—Viscount Althorp.

*Comptroller of the Household*—Lord Strachey.

The Lord Chamberlain's Department has the general supervision of the Royal Household "above stairs," and also various duties towards the Sovereign and the Court. It is through the Lord Chamberlain that presentations at Court are arranged. In cities where there

are royal palaces, he acts as the licenser of theatres. The Examiner of Plays is in the Department of the Lord Chamberlain. His sanction is necessary for the production of a play in any theatre in England at which a charge for admission is made.

#### IRISH AND SCOTCH DEPARTMENTS.

*Chief Secretary for Ireland*—Rt. Hon. Augustine Birrell.  
*Secretary for Scotland*—Lord Pentland.

These Departments for Ireland and Scotland respectively exercise functions very similar to those of the Home Department in England.

#### Officers of the House of Commons.

Rt. Hon. James William Lowther, elected Speaker in June, 1905 (salary £5,000), was again unanimously re-elected on the opening of the new parliament in February, 1910. Mr. J. H. Whitely, in October, 1911, became Deputy Speaker and Chairman of Committees of Ways and Means (salary £2,500). Sir Courtenay Peregrine Ilbert remains Clerk of the House (salary £1,800); Henry David Erskine, Sergeant-at-Arms (salary £1,000); and the Venerable A. B. O. Wilberforce, Speaker's Chaplain, with a salary of £400.

#### MINISTERIAL PENSIONS.

Pensions are granted to ex-holders of Ministerial offices whose private fortunes are inadequate to their maintenance in their station in life. The number of these pensions, the three classes into which they are grouped according to offices held—£800, £1,500, £2,000 a year—and the conditions governing their award are determined by the Political Offices Pensions Act of 1869 (32 and 33 Victoria, c. 60)—an Act which was passed as an amendment to the Pensions Act of 1834. The present pensioners are Lord Cross, since 1887, and Lord George Hamilton since 1892 in the first class; Mr. Henry Chaplin, Sir John Gorst, Lord Balfour of Burleigh, and Mr. Gerald Balfour in the second class. No new pensions have been granted since the Balfour Government went out of office in December, 1905, when room was made in the second class of pensioners for Mr. Gerald Balfour, by the promotion of Sir Michael Hicks-Beach, who had previously drawn a pension, to the peerage. There can be only four pensioners in any of the three classes.

## THE BRITISH PARLIAMENT.

The British House of Commons, since the Franchise and Redistribution Acts of 1884-5, consists of 670 Members. Geographically, the seats held by these Members are distributed as follows:—

England .....	465
London .....	61
Boroughs .....	165
Counties .....	234
Universities .....	5
Wales .....	30
Boroughs .....	11
Counties .....	19
Scotland .....	72

Counties .....	39
Universities .....	2
Ireland .....	103

Total .....	670

Qualifications for the Parliamentary franchise are various, but generally speaking the franchise is on a democratic basis; so much so, that it is possible for every man who is a householder, and who has been in occupation for a year previous to the enrolment of electors, to vote at a Parliamentary election. There is also a lodger franchise; but in this case the franchise is based upon the rental value of the rooms. It is also governed by the conditions of the tenancy, and but comparatively few men qualify for the lodger franchise, which, unlike the householder franchise, must be

claimed every year. A decision in the law courts, *Kent v. Fittal*, 1905, has brought into prominence the occupier franchise, which is granted to men renting rooms over which they have complete control. These men are not lodgers, and they hold the franchise on the same basis as the householder. Tens of thousands of working men voters were added to the electoral lists in 1906 as a result of this decision, but more recent decisions have considerably curtailed the numbers of men admitted to this form of the franchise.

The electoral rolls are compiled by the local overseers of the poor, as most of the franchises are based on the payment of the poor rate. The rolls are then gone over in open court by the revising barristers, who hold their sessions every year, as a new list of voters is compiled each year. In England the new register comes into effect on December 1st.

At the general election in December, 1910, which was taken on the same register as the election in January, 1910, out of the 7,705,717 voters on the register, 6,189,369 went to the polls; 3,269,770 voting for Liberal, Labor and Nationalist candidates, and 2,919,599 for Conservatives and Unionists. The decrease in the number of votes recorded in England, Wales and Scotland was 412,000.

Except in London, where 70,000 fewer people voted than in January, 1910, the Liberals lost much more heavily in the decrease of voters than the Conservatives. In London, the losses were 33,000 Liberals and 37,000 Conservatives. In England and Wales outside of London, the losses were 211,000 Liberal votes and 136,000 Conservative votes. Scotland polled 25,000 fewer Liberals and 11,000 fewer Conservatives. In Ireland the proportion of votes remained as overwhelmingly Nationalist as in the two previous elections. On an old register, it is generally conceded by both parties that the Liberals suffer more than the Conservatives, on account of the disfranchisement of an undue proportion of working class Liberal voters through removal out of the constituencies.

In the Budget for 1911, which was introduced in the House of Commons on May 16th, provision was made for the payment of salaries of £400 to members of Parliament. The Liberal party had long been pledged to this reform, but the immediate occasion for the change was the embarrassment caused to the Labor party through the decision of the House of Lords in the case of Osborne versus the Amalgamated Society of Railway Servants, that Trade Unions may not legally use their funds for financing Parliamentary Representation. Previous to 1911 Members of the House of Commons received neither salaries nor indemnities. There are no mileage allowances or railway privileges, and Members do not enjoy the privilege of franking their correspondence through the mails.

Parliamentary candidates pay all the costs of elections, including the returning officer's fees and expenses. Deposits to cover these outlays must be made to the returning officer before a candidate can go to the poll. In the counties, the High Sheriffs, or their deputies, act as returning officers. In the self-contained boroughs—that is, in the boroughs which return Members, and are not part of a county division—the Mayor acts as returning officer.

Elections are not held all on one day. A general election usually extends over a month, and, if an elector is qualified in several constituencies, he can vote in each. Only freeholder voters can exercise the franchise in this way, as residence is not a necessary qualification for a freehold vote.

The chief issue in the election of December, 1910, was again the veto power of the House of Lords. The election of January, 1910, gave a popular majority against the veto, but the death of King Edward in April, so shortly after the assembling of the newly elected Parliament, brought about a truce, and a conference of the leaders of the Liberal and Conservative parties was held through the summer of 1910. The first meeting of the conference was held on June 17th, and the failure of the conferees to come to any agreement was announced in November 10. The meetings were in secret, and no report of proceedings has as yet been made public. After this failure, Parliament was dissolved on November 29, and the abolition of the veto of the House of Lords was placed first on the programme of the Liberal party in the elections, the first pollings of which took place on December 3rd, and the last on December 19th. Other questions at issue were social reform, tariff reform, woman's suffrage, and Home Rule for Ireland. The Parliament bill—the Lords' Veto Act—was introduced in the new House of Commons on February 21st, 1911; was sent to the House of Lords after third reading on May 15th; passed the House of Lords on August 10th, and received the Royal Assent on August 18th.

At the time of the dissolution on November 29th, parties in the House of Commons which had been elected in January, 1910, stood as follows:—

Liberals.....	275	} 397
Labor Party.....	40	
Nationalists.....	72	
Independent Nationalists.....	10	
Unionists.....	273	
Government majority.....	124	

The General Elections of December, 1910, effected very little change in the political complexion of the House of Commons. At the completion of the elections the parties stood as follows:—

Liberals.....	272	} 398
Labor Party.....	42	
Nationalists.....	76	
Independent Nationalists.....	8	
Unionists.....	272	
Total.....	670	
Government majority.....	126	

Mr. Speaker Lowther was of the Tory party when he was elected to the Chair in 1905. As has now long been the usage at Westminster, he was re-elected at the opening of the Parliament in 1906, again in 1910, and again when Parliament assembled on January 31st, 1911. In the foregoing enumeration the Speaker, although he takes no sides in the House of Commons is reckoned as belonging to the Conservative party.

The only parties whose strength was distinctly increased at the general election were the Labor Party which gained two members, and the Irish Nationalists. These two parties hold the balance of power in the present Parliament, and the return for the support of the Nationalists in the controversy with the Lords is expected to be a Home Rule Bill for Ireland during the session of 1912. The Prime Minister and the Cabinet are also pledged to give full facilities for a Bill enfranchising women on the same terms as men—a Bill which is known to have the support of a large majority of the members of the House of Commons.

On January 1, 1911, the number of members of the House of Lords was 631, made up as follows:—

Hereditary Peers of the United Kingdom	556
Life Peers.....	5
Archbishops and Bishops.....	26
Scottish Representative Peers.....	16
Irish Representative Peers.....	28

Of the 556 peers of the United Kingdom 14 were then minors, and there was one case of contested succession, leaving the voting strength of the House of Lords when Parliament opened, 616. On June 20, on the occasion of the coronation of King George and Queen Mary, nine new peers of the United Kingdom were created, bringing up the total membership of the House of Lords to 640.

Only in so far as concerns Scotland is the House of Lords affected by a general election. After a dissolution of Parliament, the Scotch Lords meet at Holyrood Palace, and in accordance with the terms of the Act of Union elect sixteen peers to represent them in the House of Lords. At the election in December, 1910, the sixteen peers chosen to represent Scotland were all of the Unionist Party. At the final division in the House of Lords on the Veto Act, which was taken on the question of whether or not the peers would adhere to the amendments to the Bill, concurrence in which was refused by the House of Commons, 131 peers voted with the Government and 114 voted against. These 131 votes did not, however, represent the Liberal strength in the House of Lords, for a number of the peers and eleven of the bishops voted with the Government in order to avoid the swamping of the House of Lords by the creation of Liberal peers. "I did not vote for the Bill," said the Archbishop of York on this occasion, "I voted against the creation of from 450 to 500 new peers." These votes and those of 30 Unionist peers gave the Government in this final division a majority of 17.

# BRITISH IMPORT DUTIES, 1910-11.

There were increases in the Budget of 1909 on tobacco, spirits and collodion, besides the new duty on gasoline for motor cars. By the rejection of the Finance Bill in the House of Lords, on November 30th, 1909, the collection of these duties, which had been begun on the introduction of the Budget resolutions on April 29th, 1909, was thrown into disorder. In most cases, however, the increased duties were paid by importers, under a pledge from the Government to return the amount should the Finance Bill fail to become law in 1910. The Act received the Royal Assent on April 29th, 1910, and the work of collecting the arrears was at once commenced. Duties were unchanged in the Budget of 1910.

## THE BRITISH CENSUS OF 1911

The census of the inhabitants of England and Wales, Scotland and Ireland, the Isle of Man and the Channel Islands is taken in the first year of each decade. The enumeration is carried out by means of household schedules—a plan first adopted in 1841. In taking the census for England and Wales in 1911 the enumerators worked under the direction of the 2,009 local registrars, and these again under the direction of the 635 superintending registrars. The 2,009 registration districts were subdivided into 35,000 enumeration districts.

By means of this machinery the total number of persons returned as living in England and Wales at midnight of Sunday, April 2nd, 1911, was 36,075,269. For Scotland, the total population was returned as 4,759,521; for Ireland, 4,381,951; and for the islands of the British seas—the Isle of Man and the Channel Islands—148,934, making a total population for the United Kingdom of 45,365,675. As regards increase of population there were great differences in the percentage of increase or decrease in England, Scotland and Ireland. In England and Wales, the increase was at the rate of 10·91 per cent., in Scotland it was 6·4 per cent. and in Ireland there was a decrease of 1·7 per cent. Even in England and Wales, however, the rate of increase was less than has been recorded in any decennial census since 1801. The following table gives the actual population and the rate of increase in England and Wales for the last 110 years:—

Year.	Population.	Rate of Increase.
1801.....	8,892,536	.....
1811.....	10,164,256	14·00
1821.....	12,000,236	18·06
1831.....	13,896,797	15·80
1841.....	15,914,148	14·27
1851.....	17,927,609	12·65
1861.....	20,066,224	11·90
1871.....	22,712,266	13·21
1881.....	25,974,439	14·36
1891.....	29,002,525	11·65
1901.....	32,527,843	12·17
1911.....	36,075,269	10·91

During the 110 years it will thus be seen that the population of England and Wales has more than quadrupled, and that, roughly speaking, there are now four persons to every one inhabiting the country at the opening of the nineteenth century.

## THE EXCESS OF FEMALES.

The number of schedules collected is roughly equivalent to the number of families. In 1911, the number in England and Wales was 8,018,857, as compared with 7,036,868 in 1901—an increase of 981,989, or 14 per cent., a larger increase in the percentage of families than in the percentage of individuals. Of the 36,075,269 individuals composing these 8,018,857 families, 17,448,476 were males, and 18,626,793 were females. This gives an excess of 1,178,317 females over males—an excess which would be greatly reduced if the English and Welsh members of the army and navy, and of the merchant service abroad, were included in the reckoning. The proportion of females to males in the population of England and Wales in 1801 was 1,057 to 1,000; it then declined census after census to 1851, when it stood at 1,042 to 1,000. After 1851 there was a change in the opposite direction, and up to 1901 there was a slight but continuous increase in the proportion of females to males. In 1911 the proportion was the same as in 1901—1,068 to 1,000, but when the large number of English soldiers, who were in South Africa in 1901, is kept in mind, it seems undoubted that there is a small actual increase in the proportion of females in the population as recorded in the census of 1911.

## THE BALANCE OF POPULATION.

The rate of increase of population depends on two factors—the balance of births over deaths, and the balance between outward and inward passenger traffic. The net gain of population in England and Wales by

the balance of births over deaths, which had been 15·09, 13·97, and 12·39 in the three preceding decennial census periods, showed a change from this continuous decrease in the period 1901-1911. It was 12·44—a result due rather to the decrease in the death rate than to any improvement in the birth rate, which still continues to show a decline. The loss of population in the balance of passenger movement, which was over 164,000 in 1871-81, and 600,000 in 1881-91, fell to 68,000 in 1891-1901. In the last decennial period it rose again to nearly half a million persons. The following table gives particulars of the balance of population since 1871:—

Census year.	Enumerated population.	Actual inter-censal increase.	Natural increase.	Loss by passenger movement.
1871..	22,712,266	.....	.....	.....
1881..	25,974,439	3,262,173	3,426,480	164,307
1891..	29,002,525	3,028,086	3,629,475	601,389
1901..	32,527,843	3,525,318	3,598,648	68,330
1911..	36,075,269	3,547,426	4,044,922	497,496

## RURAL AND URBAN POPULATIONS.

One of the features of the census of 1911 for England and Wales is a decline in the relative growth of the towns—especially of the larger towns—in proportion to the rural areas. Including the boroughs of London as one district, there are in England and Wales 98 towns with each a population of over 50,000. Of these 53 showed increases in excess of ten per cent., but it was noticeable that these were chiefly towns of small population and frequently towns of the nature of suburbs to larger cities. The greatest proportionate increase in England was in Southend-on-Sea, which may be counted as an Eastern suburb—newly developed—of London. There the population increased from 28,857 to 62,723, an increase of 117·4 per cent. The increase of the population of the whole of the 98 towns was, however, only 8·7 per cent. as compared with an increase of 10·91 for the whole of the country. Of the larger towns, Coventry showed the greatest increase, from 69,978 in 1901 to 106,377 in 1911, or 52 per cent.—an increase almost exclusively due to the development of motor car manufacturing in its area. The administrative county of London showed a decline in population from 4,636,267 in 1901 to 4,522,961 in 1911, a decrease of 0·29 per cent.; but greater London, which includes the London suburbs outside of the County of London, but within the districts of the City of London Police and the Metropolitan Police, showed an increase of 10·20 per cent.—from 6,581,402 in 1901 to 7,252,963 in 1911. Perhaps the greatest decrease in any area was in the City of London, the central square mile which includes the Bank of England and the Mansion House. Here the resident population declined from 26,923 in 1901 to 19,657 in 1911, a decrease of 26·89 per cent. A special Day Census was, however, taken of the City of London which showed that there entered daily into the City 1,077,155 persons and 94,095 vehicles. Pedestrians going into the city numbered 126,662; trains took in 342,451 passengers; motor vehicles conveyed 205,367; horse vehicles, 144,416; electric trams, 245,794; and bicycles, 12,505.

As regards the rural areas, in the decennial period from 1891 to 1901 the comparative increase of rural and urban areas was 2·9 per cent. and 15·2 per cent. For the ten years from 1901 to 1911 the rate of increase in the urban districts declined from 15·2 per cent. to 11·1 per cent., while the rate of increase in the rural areas rose from 2·9 per cent. to 10·2 per cent. These rates, however, represent an actual increase of 2,818,072 persons in the urban districts, and of 729,354 persons in the rural areas. Taking the urban and the rural districts as constituted at each of the four past census years: in 1881, 67 per cent. of the total population of England and Wales were dwellers in towns, and 33 per cent. were in the rural districts; in 1891 the percentages were 72 for the towns, and 28 for the country; in 1901, 77 for the towns and 23 for the country; and in 1911, 78 per cent. for the towns and 22 for the country.

## STATISTICS OF PARLIAMENTARY REPRESENTATION.

In Great Britain there is no readjustment of Parliamentary constituencies after the taking of the census, the only Redistribution Act that has been passed by Parliament at Westminster since the Reform of 1832 being that of 1885. The number of members of the House of Commons from the 468 Parliamentary constituencies in England and Wales (not including the Universities) being 490, and the enumerated population in England and Wales being 36,075,269, an equal numerical distribution would give one member to 73,623 persons. The following table gives some idea of how far the actual representation departs from this average:—

Constituencies having the following population per representative.	Total Population.	Number of Electors.	No. of Constituencies.	No. of Representatives.

Of the total population in England and Wales in 1911, 54·4 per cent. were resident in Parliamentary county constituencies, and 45·6 in Parliamentary boroughs, while the proportion of electors in these counties and boroughs were respectively 58·7 and 41·3 per cent. In 1891 there were only seven constituencies with populations exceeding 100,000. In 1901 there were 41, and in 1911 there were 83.

## CENSUS FIGURES FOR SCOTLAND.

Scotland first ranked ahead of Ireland in population in the census of 1901. At the time the lead was very small, only 13,182, but at the census of 1911 the lead was greatly increased. Scotland gained 287,564 in her population between 1901 and 1911, and Ireland lost 76,824 in the same period. The figures for 1911 show that Scotland has at the present time a population greater than that of Ireland by 377,570. The need for Parliamentary redistribution in Scotland is obvious, when it is remembered that Scotland has 72 representatives in the House of Commons at Westminster, and Ireland, with her smaller population, has 103.

The total population of Scotland, as enumerated on the night of April 2nd, 1911, was 4,759,521, as compared with 4,471,957 in 1901. The returns for 1911 showed that there were in Scotland 144,239 more females than males, the figures being 2,307,641 males as against 2,451,880 females. As in the case of England, however, the addition of the men on foreign service in the army and the navy, and the fishermen and merchant seamen who were not enumerated would have gone far to redress the balance. The decennial increase in the Scottish population was 6·4 per cent., a smaller increase than in any decade since 1861. The total increase in the population of Scotland for the 110 years since the opening of the nineteenth century amounts to 3,151,025 or 195·9 per cent.

## CHANGES OF POPULATION IN SCOTLAND.

The increase of population since 1801 has been very unevenly distributed. Twenty-nine of the counties have increased their populations—some by very large amounts, but four counties—Argyll, Berwick, Perth and Sutherland—have lost population, and have now fewer resident inhabitants than in 1801. The largest increases of county population during this period of 110 years are in Lanark, 1,299,421 or 879·8 per cent.; Edinburgh, 385,065 or 314·1 per cent.; Renfrew, 236,073 or 300·7 per cent.; Aberdeen, 190,285 or 157·1 per cent.; and Ayr 184,125 or 218·7 per cent. During the last decade there has been an increase of population in 18

counties and a decrease in 15 counties. The greatest increases in county population are found in Lanarkshire, 107,786; in Fife, 48,894; in Dumbarton, 25,966; and in Renfrew, 45,594. The greatest decreases of county population are in Inverness, 2,834; Orkney, 2,803; Argyll, 2,741; and Forfar, 2,663. Of the total population of Scotland, 3,139,824 lived in the burghs, and 1,619,621 in the portions of the country outside the burghs. This comparison however, does not exactly define the urban from the rural population, for some burghs in Scotland are so small as to be practically rural and some communities outside burgh limits are practically urban.

## LARGE TOWNS IN SCOTLAND.

There are 18 burghs in Scotland with populations of over 30,000, as compared with 15 in the census of 1901. Four towns have each a population of over 100,000. These are Glasgow, with 784,455, an increase since the last census of 1·1 per cent.; Edinburgh, with 320,315, an increase of 0·9 per cent.; Dundee, with 165,006, which has increased 1·2 per cent.; and Aberdeen, with 163,084 inhabitants, an increase of 6·2 per cent. The towns which have lost in population since 1901 are Inverness, Abroath, Howick, Montrose, Forfar, Rothsay, Hellensburgh, Kirkcudbright and Wigtown. The greatest disappointment with the results of the census was experienced at Edinburgh and Dundee. Around Edinburgh, for the first time in 50 years, the growth of population has been checked. With one exception there had been no decade since 1851 when the population of Edinburgh did not increase by at least 26,000. In the census the increase for the whole city was only 2,750, and in five of the districts there was an actual decrease. The population of Dundee stands at 164,616, compared with 160,904 ten years ago, an increase of 3,712; but during this period Dundee has included the suburban area of Downfield in her burgh limits. But for this extension of territory the population of Dundee would have remained practically stationary, and Dundee would have to take fourth place in the cities of Scotland, ranking after Aberdeen whose population increased during the decennial period from 143,722, in 1901, to 163,084, in 1911.

## THE POPULATION OF IRELAND.

According to the enumeration made on April 2nd, 1911, the population of Ireland is 4,381,951 persons—2,186,804 males and 2,195,147 females. These figures show a decrease since 1901 of 76,824 persons, or 1·7 per cent. The decrease in males was 0·6 per cent., and in the number of females 2·8 per cent. The following table gives the population of Ireland by Provinces, showing the increase or decrease in each. It will be seen that only in Leinster, the Province in which Dublin is situated, has there been an increase, and that even in Ulster, in spite of a gain of 10·4 per cent. for Belfast, there has been an actual decrease in population.

Province.	1910.	1911.	Increase or Decrease.	Rate per cent.
Leinster.....	1,152,829	1,160,328	+7,499	+·07
Munster.....	1,076,188	1,033,085	-43,103	-·40
Ulster.....	1,582,826	1,578,572	-4,254	-·03
Connaught.	646,932	609,966	-36,966	-·57
Total.....	4,458,775	4,381,951	-76,824	-1·7

The decline in population in Ireland is not a new thing. It has been going on steadily since 1841, and as a matter of fact the decrease is so comparatively small for the decade 1901-1912, that it may mark the turning point, and the next census may show an arrest of the decline if not an actual gain in population. The following table shows the population since 1841:—

1841.....	8,196,597
1851.....	6,574,278
1861.....	5,798,967
1871.....	5,412,377
1881.....	5,174,836
1891.....	4,704,750
1901.....	4,458,775
1911.....	4,381,951

## THE RELIGIOUS CENSUS OF IRELAND.

According to the returns of the enumerators, out of the 4,381,951 inhabitants of Ireland, 3,238,056 are of the Roman Catholic Church; 575,489 are of the Episcopal Church; 439,876 are Presbyterians, and 61,806 are Methodists. In the decrease of population, the Roman Catholics have lost the most, both in actual numbers and proportionately. The loss of the Roman Catholics is reckoned at 2·1 per cent.; of the Episcopalians, 1 per cent.; of the Presbyterians, 0·8 per cent.; and of the Methodists, 0·3 per cent. Of the total population the percentages are:—

Roman Catholics.....	73·9 per cent.
Episcopalians.....	13·1 “
Presbyterians.....	10·0 “
Methodists.....	1·4 “
Scattering.....	1·6 “

## LARGE CITIES OF IRELAND.

There are three cities in Ireland with over 100,000 inhabitants. These are Belfast, with 385,492 inhabitants; Dublin, with a population of 399,272; and Cork, with 102,274. During the ten years from 1901 to 1911 Belfast had a percentage of increase of 10·4, Dublin of 6·4, and Cork of 0·7. The five cities that come next in population are Limerick, with 46,725, which increased 1·2 per cent.; Londonderry, with 40,799, an increase of 2·3 per cent.; Rathmines (an urban district as distinct from a

city), with 38,190, an increase of 17·1 per cent.—the largest increase in any area of Ireland; Pembroke, with 29,260, an increase of 13·4 per cent.; and Waterford, with 27,430, an increase of 2·5 per cent. over the number for 1901.

## OVERSEA DOMINIONS.

Australia and South Africa took their census in 1911, as well as Great Britain and Canada. The figures for Australia were:—

New South Wales.....	1,648,212
Victoria.....	1,315,000
Queensland.....	603,908
South Australia.....	411,161
Western Australia.....	280,816
Tasmania.....	190,898

Total population for the Dominion of Australia, 4,449,495. The population of Australia in 1901 was 3,773,801.

For the Union of South Africa the total population of all races was 5,938,499, as compared with 5,185,824 in 1904. Of these there are 1,278,025 Europeans, compared with 1,116,806; and 4,061,082 natives, as compared with 3,495,104. The other colored inhabitants number 619,392, as compared with 563,914. The feature of the returns for South Africa is the shrinkage in the population of the coast towns with the exception of Durban, and the great growth of Johannesburg, the Reef and Pretoria.

# THE LAW OF INTESTATE ESTATES.

## DESCENT AND DISTRIBUTION OF PROPERTY.

As to all persons who died before the first day of January, 1852, the rules of descent are substantially the same as in England at that date.

Real estate of persons who died intestate (*i.e.*, who have left no will) after that date and prior to the first day of July, 1886, descends first to lineal descendants and those claiming by or under them *per stirpes*, second to father, third to mother, and fourth to collateral relatives, subject to certain rules and regulations prescribed in the statute.

The surplus personal estate of intestates who died prior to the first day of July, 1886, is, after the expiration of one full year from the death of the intestate, to be distributed in the following manner: One-third shall go to the widow of the intestate, and the residue in equal proportions to his children, or if dead, to their lineal descendants; if there are no children or legal representatives subsisting, then where the net value of the real and personal estate does not exceed \$1,000, same belongs absolutely to the widow, and as to any excess over and above said amount after payments of debts, etc., the widow takes a moiety, and the other moiety goes to the next of kindred, in equal degree, and their representatives; if no widow, all to children; if neither widow nor children, all to next of kin, in equal degree, and their representatives. But no representation is admitted among collaterals further than children of intestate's brothers and sisters.

All real and personal property of persons dying on or after the 1st day of July, 1886, devolves upon and becomes vested in the legal personal representatives for the period of a year (which may be extended in a prescribed manner) subject to the payment of debts and to the effectual dispositions of deceased. The real and personal property of a married woman, in respect of which she has died intestate, shall be distributed as follows: One-third to her husband, if she leaves issue, and one-half if she leaves none, and subject thereto, shall go as if her husband had predeceased her. The realty and personalty comprised in a residuary devise or bequest is (unless the will otherwise directs) applicable ratably according to their respective value to the payment of the debts.

## THE SUCCESSION DUTY ACT.

R.S.O. (1897), CHAP. 24 AND AMENDMENTS THERETO.

This Act applies to the Estates of all persons dying after 1st July, 1892.

The word "property" includes real and personal property of every description and every estate or interest therein capable of being devised or bequeathed by will or of passing on the death of the owner to his heirs or personal representatives.

The word "child" shall be deemed to include any lawful child of the deceased or any lineal descendant of such child or any person or persons adopted before the age of twelve years by the deceased as his child or children or any infant to whom the deceased for not less than ten years immediately prior to his death stood in the acknowledged relationship of a parent or any lineal descendant of such adopted child as aforesaid born in lawful wedlock.

The phrase "aggregate value" means the value of the property after the debts, encumbrances or other allowances (set out in the act) are deducted therefrom and shall include property situate outside of the Province as well as within.

"Dutiable value" means the value of the property after the debts, encumbrances or other allowances are deducted therefrom.

In determining the dutiable value of any property the value shall be taken as at the date of the death of the deceased, and allowance shall be made for reasonable funeral expenses and for his debts and encumbrances, but an allowance shall not be made (a) for debts incurred by the deceased or encumbrances created by a disposition made by the deceased unless such debts or encumbrances were incurred or created *bona fide* for full consideration in money or money's worth wholly for the deceased's own use and benefit and take effect out of his interest. (b) For any debt in respect whereof there is a right to reimbursement from any other estate or person. (c) More than once for the same debt or encumbrance charged upon different portions of the estate.

No duty shall be leviable:—

(1) On any estate the aggregate value of which does not exceed \$10,000. (2) On property devised or bequeathed for religious, charitable or educational purposes to be carried on by a corporation or persons domiciled within the Province of Ontario. (3) On property passing under a will intestacy or otherwise to or for the use of a father, mother, husband, wife, child, daughter-in-law or son-in-law of the deceased, where the aggregate value of the property as defined by this Act passing to the persons mentioned does not exceed \$50,000.

Save as aforesaid the following property shall be subject to a succession duty:—

(a) All property situate within this Province and any interest therein or income therefrom, whether the deceased person owning or entitled thereto was domiciled in Ontario at the time of his death or was domiciled elsewhere, and all moveable or personal property locally situate out of this Province and any interest therein where the owner was domiciled in this Province at the time of his death, whether such property passes by will or intestacy.

(b) All property situate as aforesaid or any interest therein or income therefrom, which shall be voluntarily transferred by deed, grant, bargain, sale or gift made in contemplation of the death of the grantor, bargainor, vendor or donor, or made or intended to take effect in possession or enjoyment after such death to any person in trust or otherwise or by reason whereof any person shall become beneficially entitled in possession or expectancy to any property or the income thereof.

(c) Any property taken as a *donatio mortis causa* made by any person dying, on or after the 7th April, 1896, or taken under a disposition made by any person so dying purporting to operate as an immediate gift, during life, whether by transfer, delivery, declaration of trust, or otherwise which shall not have been *bona fide* made twelve months before death of deceased.

(d) Any property which a person dying on or after the 7th day of April, 1896, having been absolutely entitled thereto has caused or may cause to be transferred to or vested in himself, and any other person jointly whether by disposition or otherwise so that the beneficial interest therein or in some part thereof passes or accrues by survivorship on his death to such other person, including also any purchase or investment effected by the person who was absolutely entitled to the property either by himself alone or in concert or by arrangement with any other person.

(e) Any property passing under any past or future settlement including any trust whether in writing or otherwise, and whether for valuable consideration or not made by any person dying on or after 7th April, 1896, by deed or other instrument not taking effect as a will whereby any interest in such property or the proceeds thereof for life or any other period is reserved to the settlor, or whereby the settlor may have reserved the right to exercise any power to restore to himself the absolute interest in such property.

(f) Any annuity or other interest purchased or provided by any person dying on or after 7th April, 1896, either by himself alone or in concert with any other person to the extent of the beneficial interest arising by survivorship or otherwise on the death of the deceased.

(g) Any interest in dower or by the courtesy in any land of the person so dying to which the wife or husband of the deceased becomes entitled on the decease of such person.

Where the aggregate value of the deceased's property exceeds \$50,000, and passes in manner aforesaid either in whole or in part to or for the benefit of the father, mother, husband, wife, child, son-in-law or daughter-in-law of the deceased, the same or so much thereof as so passes (as the case may be) shall be subject to a duty at the rate and on the scale as follows:—

(a) Where the said aggregate value exceeds \$50,000 and does not exceed \$75,000, 1 per cent.

(b) Exceeds \$75,000 and does not exceed \$100,000, 2 per cent.

(c) Exceeds \$100,000 and does not exceed \$150,000, 3 per cent.

(d) Exceeds \$150,000 and does not exceed \$200,000, 4 per cent.

(e) Exceeds \$200,000, 5 per cent.

Provided where the value of any dutiable property exceeds \$100,000 and the amount passing in manner aforesaid to any one person exceeds the amount hereinafter mentioned, a further duty shall be paid on the amount so passing in addition to the rates in the foregoing paragraph mentioned as follows:—

(a) Where the whole amount so passing to one person exceeds \$100,000 and does not exceed \$200,000, 1 per cent.

(b) Exceeds \$200,000 and does not exceed \$400,000,  $\frac{1}{2}$  per cent.

(c) Exceeds \$400,000 and does not exceed \$600,000, 2 per cent.

(d) Exceeds \$600,000 and does not exceed \$800,000,  $2\frac{1}{2}$  per cent.

(e) Exceeds \$800,000, 3 per cent.

Where the aggregate value of the property of the deceased exceeds \$10,000, so much thereof as passes to or for the benefit of the grandfather or grandmother or any other lineal ancestor of the deceased, except the father and mother, or to any brother or sister of the deceased, or to any descendant of such brother or sister, or to a brother or sister of the father or mother of the deceased, or to any descendant of such last mentioned brother or sister shall be subject to a duty of \$5 for every \$100 of the value.

Provided that where the value of any dutiable property exceeds \$50,000, and the amount passing in manner aforesaid to any one person mentioned in the next preceding subsection, except the father and mother, exceeds the amount hereinafter mentioned, a further duty shall be paid on the amount so passing in addition to the duty in the next preceding subsection mentioned as follows:—

(a) Where the whole amount so passing to one person exceeds \$50,000 and does not exceed \$100,000, 1 per cent.

(b) Exceeds \$100,000 and does not exceed \$150,000,  $\frac{1}{2}$  per cent.

(c) Exceeds \$150,000 and does not exceed \$200,000, 2 per cent.

(d) Exceeds \$200,000 and does not exceed \$250,000,  $2\frac{1}{2}$  per cent.

(e) Exceeds \$250,000 and does not exceed \$300,000, 3 per cent.

(f) Exceeds \$300,000 and does not exceed \$350,000,  $3\frac{1}{2}$  per cent.

(g) Exceeds \$350,000 and does not exceed \$400,000, 4 per cent.

(h) Exceeds \$400,000 and does not exceed \$450,000,  $4\frac{1}{2}$  per cent.

(i) Exceeds \$450,000, 5 per cent.

Where the aggregate value of the property of the deceased exceeds \$10,000, and any part thereof passes to or for the benefit of any person in any other degree of collateral consanguinity to the deceased than is above described, or to or for the benefit of any stranger in blood to the deceased, save as hereinbefore provided for the same, shall be subject to a duty of \$10 for every \$100 of the value.

Any portion of an estate where the deceased at time of death is domiciled in Ontario, and which is brought into Ontario by executors or administrators to administer shall be liable to duty, but if any succession duty or tax has been paid thereon elsewhere than in Ontario, and such duty or tax so collected is greater than the duty payable in this Province no duty shall be payable thereon; but if the duty so paid elsewhere is less than the Ontario duty then the difference must be paid.

Where any duty or tax shall have been paid by the estate upon any moveable or personal property locally situate outside of Ontario or any interest therein, an allowance shall be made for any outside duty paid thereon; the difference, if any, between the outside and Ontario duty shall be likewise paid. Provided the above allowances and differences are only made with

respect to any country, state or British Province or possession where a similar allowance is made for the duty or tax paid under this Act on property in Ontario passing on the death of any person domiciled in any such outside country.

Should an executor or administrator, in order to escape payment of Succession Duty, distribute any part of said estate without bringing the same into Ontario, such executor or administrator shall be liable, personally, to pay His Majesty the amount of duty as if such assets had been brought within Ontario, provided that this shall not apply to payments made to persons domiciled out of Ontario from assets situate without the Province.

No foreign executor or administrator shall assign or transfer any stocks or shares in Ontario standing in the name of a deceased person, or in trust for him, which are liable to pay Succession Duty until such duty is paid or security given therefore as provided, and any corporation allowing a transfer of any stocks or shares contrary to this provision shall be liable to pay the duty.

An executor or administrator applying for letters probate or administration to the estate of a deceased person shall, before the issue of such letters to him, make and file with the Surrogate Registrar a full and correct statement under oath, giving (a) full itemized inventory of all the property of the deceased and the market value thereof. (b) The several persons to whom the same will pass under the will or intestacy and the degree of relationship in which they stand to the deceased; and such executor or administrator shall, before the issue of such letters probate, deliver to the Surrogate Registrar a bond, in a penal sum equal to ten per cent. of the sworn value of such property liable to Succession Duty, executed by himself and two sureties to be approved of by the Registrar conditioned for the due payment of any duty to which the property may be found liable.

Should the Treasurer of Ontario be not satisfied with the value so sworn to or with the correctness of the Inventory, he shall direct the Sheriff of the County or City to make a valuation and appraise the said property, and provision is made for an appeal from such appraisal to the Surrogate Judge of the County within thirty days after making and filing such assessment. The duties imposed by the Act unless otherwise provided for shall be due and payable at the death of the deceased or within eighteen months thereafter. Should they not then be paid interest at 5 per cent. per annum from death of deceased shall be charged and collected, and same shall be a lien upon the property in respect to which they are payable until fully paid. Provision is made however as regards postponement of the duty payable on any future or contingent estates, income or interest, with the consent of the Provincial Treasurer in writing, until such estate, income or interest comes into possession. The Treasurer of the Province, on being satisfied that the full amount of Succession Duty has been or will be paid in respect of an estate or in part thereof shall, if required, give to the person accounting for the duty a certificate which shall discharge from any further claim the property shown by the certificate to form the estate.

An administrator, executor or trustee having in charge or trust any estate, legacy or property subject to duty shall deduct same therefrom or collect the duty thereon from the person entitled to such property, and shall not deliver any property subject to duty to any person until he has collected the duty thereon.

It has concurrent jurisdiction in relation to revenue cases and the enforcement of penalties, in cases in which it is sought at the instance of the Attorney-General of Canada to impeach or annul any patent of invention, in copyright trade mark or industrial design cases, in patent cases or respecting lands; cases against Crown officers for anything done or omitted to be done as such officer, and all actions or suits in which the Crown is plaintiff or petitioner in cases of Receiver for or sale of insolvent Railways. ### Admiralty Division.

In pursuance of the powers given by "The Colonial Courts of Admiralty Act, 1890," the Exchequer Court of Canada is declared a Colonial Court of Admiralty. (See R. S. C. (1906), Chap. 141.)

The Exchequer Court has the jurisdiction conferred by the Colonial Courts of Admiralty Act throughout Canada and the waters thereof, whether tidal or non-tidal, and may enforce all rights and remedies in all matters (including cases of contract and tort and proceedings *in rem* and *in personam*) arising out of or connected with navigation, shipping, trade or commerce, which may be had or enforced in any Colonial Court of Admiralty under the said Act.

Admiralty business may be transacted at the office of the Exchequer Court at Ottawa, or at the local registry offices.

There are Admiralty Districts presided over by Local Judges in Admiralty as follows:—

(a) The Province of Ontario under the name of the Toronto Admiralty District with a Registry at the City of Toronto.

(b) The Province of Quebec with Registry at the City of Quebec.

(c) The Province of Nova Scotia with Registry at the City of Halifax.

(d) The Province of New Brunswick with Registry at the City of St. John.

(e) The Province of British Columbia with Registry at the City of Victoria.

(f) The Province of Prince Edward Island with Registry at the City of Charlottetown.

(g) The Yukon Territory with Registry at the City of Dawson.

### OFFICERS OF THE TORONTO ADMIRALTY DISTRICT.

*Local Judge*, The Hon. J. T. Garrow.

*Registrar*, John Bruce.

*Marshal*, R. S. Stonehouse.

Local Judges of the Admiralty are within their Admiralty District ranked as Judges of the Exchequer Court.

### The Supreme Court of Judicature for Ontario.

Constituted 1891. The membership is composed of all Judges of the Court of Appeal and of the High Court of Justice—17 in all. Meetings are held as often as may be deemed necessary. All rules of Court are enacted by the Court.

The Court consists of two divisions, viz., the several divisions of the High Court constitute one division styled "The High Court of Justice for Ontario," and the Court of Appeal constitutes the other division.

### COURT OF APPEAL FOR ONTARIO.

Constituted for the hearing of appeals from the High Court of Justice, civil and criminal; the Ontario Railway and Municipal Board, Official Arbitrators, Drainage Referees, constituted by the Lieutenant-Governor-in-Council; by Judges and by Police Magistrates in criminal matters.

From judgments of this Court an appeal lies to the Supreme Court of Canada as provided in the Dominion Act constituting the latter, or in cases where the amount involved exceeds \$4,000 or otherwise falls within the Ontario Act of 1910, an appeal may be taken direct to the Privy Council.

The Court holds four regular sittings in each year, the dates for which are fixed by the Judges of the Court, and are announced at the November sittings for the next year.

*Judges—Chief Justice of Ontario*, Hon. Sir Charles Moss (\$3,000); Hon. J. T. Garrow, Hon. J. J. MacLaren, Hon. R. M. Meredith, and Hon. James Magee, J.J.A. (\$7,000).

### HIGH COURT OF JUSTICE FOR ONTARIO.

The jurisdiction of this Court extends to all manner of actions and causes, criminal and civil, real, personal and mixed, within Ontario, and it may proceed in such, by such process and course as are provided by law, and as shall tend with justice and despatch to determine the same; and may and shall hear and determine all issues of law, and also (with or without a jury as provided by law) determine all issues of fact, and give judgment, and award execution thereon, as might on the 5th day of December, 1895, be done in His Majesty's Court of King's Bench, Common Bench or in matters which relate to the King's Revenue (including the condemnation of contraband or smuggled goods) as may be done by His Majesty's Court of Exchequer in England, and also the like jurisdiction as the Court of Chancery in England, on the 4th day of March, 1837, in cases of fraud, accident, trusts, executors, administrators,

co-partnerships, account, mortgages, awards, dower, infants, idiots, lunatics and their estates, waste, specific performance, discovery, and to prevent multiplicity of suits, and may decree the issue, repeal, or voidance of letters patent, and generally the like powers which the Court of Chancery in England possessed on the 10th day of June, 1857, to administer justice in all cases in which there is no adequate remedy at law.

Divisional Court sittings are held on the first Monday of each month (except vacation) to dispose of such matters as may properly be brought before a Divisional Court.

**LAW CIRCUITS.**—*Sittings for Hearing of Actions.*—In the Counties of York, Wentworth, Carleton and Middlesex, there is held an additional such Court every winter; and in the County of York there is held another such Court before the first day of July. Whenever in any year the judges may determine that it is not necessary to hold the latter such sittings may be dispensed with. The sittings for hearing of actions may, in the discretion of the Judges, be held separate and apart from the Courts of Oyer and Terminer, and General Gaol Delivery. In the City of Toronto the sittings for trial of actions without a jury are now practically continuous from 15th September to the 1st of next July, excepting Christmas vacation, and actions can be set down as soon as ready for trial.

The Courts in each Circuit are presided over by the Chancellor or by a retired or present Justice of the High Court or of the Court of Appeal, or by a Judge of a County Court, or by some one of His Majesty's Counsel learned in the law, requested by the Chancellor or one of the Justices to act in that behalf.

**WEEKLY SITTINGS.**—A Judge sits at Osgoode Hall every week except vacation for the purpose of disposing of all business except trials which may be transacted by a single Judge. Chamber business on Tuesdays and Fridays. Court business on Mondays, Wednesdays and Thursdays. Sittings will be held at Ottawa and London respectively at least one day in each week (except vacation) to dispose of certain matters which can be determined by a single Judge. The Judges have now power on petition to constitute monthly or semi-monthly sittings in lieu of weekly.

**CHAMBERS.**—Chambers are held each day for such business relating to actions as may be transacted by a single Judge out of Court. The Master in Chambers is empowered to obtain the assistance of any Official Referee to sit with or for him.

**LONG VACATION** extends from the 1st of July to the 31st of August, both inclusive. There is also a vacation from the 24th December to 6th January, both inclusive.

**COURTS FOR THE TRIAL OF CONTESTED ELECTIONS.**—The nature of these courts is sufficiently indicated in their title. In respect to elections for the House of Commons of Canada, the Superior Courts by one of their Judges appointed in that behalf, are invested with special jurisdiction for the trial of contested elections, and appeals lie to the Supreme Court at Ottawa. In respect to elections for the Local Legislature of Ontario, the Judges of the Supreme Court of Judicature meet annually on or before the day next preceding the Christmas Vacation, and severally elect, by a majority of votes, a Judge from their respective Courts or Division to be placed on the rota for the trial of election petitions during the ensuing year. In the case of death or the illness of a Judge so chosen, the Court of which he is a member meet and elect another Judge. Trials involving corrupt practices are presided over by two Judges, otherwise a single Judge presides, and an appeal lies to the Court of Appeal of the Province.

## LEGAL WEIGHTS AND MEASURES IN CANADA.

The legal weights and measures of Canada are the Imperial yard, Imperial pound avoirdupois, Imperial gallon (of 277·27384 cubic inches), and the Imperial bushel. The Imperial gallon is equal to 4·54174 litres, while the wine gallon, used in the United States, is equal to 3·785 litres.

By Sec. 337 of Chap. 85 of Revised Statutes of Canada, 1906, it is provided: That in contracts for sale and delivery of any of the undermentioned articles, the bushel should be determined by weighing, unless a bushel by measure be specially agreed upon, the weight equivalent to a bushel being as follows:—

Wheat, 60 lbs. Indian Corn, 56 lbs. Rye, 56 lbs. Pease, 60 lbs. Barley, 48 lbs. Malt, 36 lbs. Oats, 34 lbs. Beans, 60 lbs. Flax seed, 56 lbs. Hemp, 44 lbs. Blue grass seed, 14 lbs. Lime, 70 lbs. Castor beans, 40 lbs.

Potatoes, 60 lbs. Turnips, 60 lbs. Carrots, 60 lbs. Parsnips, 60 lbs. Beets, 60 lbs. Onions, 50 lbs. Bituminous coal, 70 lbs. Clover seed, 60 lbs. Timothy, 48 lbs. Buckwheat, 48 lbs.

By Sec. 19, Chap. 52 of the Revised Statutes of Canada, 1906, the British hundredweight of 112 pounds, and the ton of 2,240 pounds were abolished, and the hundredweight was declared to be 100 pounds, and the ton 2,000 pounds avoirdupois, thus assimilating the weights of Canada and the United States.

By recent Acts it is ordered that for apples the barrel shall be 96 quarts. Size, length, 26½ inches between head (inside measure); diameter (head) 17 inches; middle diameter, 18½ inches. Boxes, 11 x 10 x 20 inches containing 2,200 cubic inches.

## Collegiate Institutes and High Schools.

Each of the High Schools (which form the intermediate link between the Public Schools and the Universities) is managed by a Board of Trustees, appointed jointly by the County and Town Councils. In cities the Trustees may be appointed by the City Councils, or may be elected by general vote of qualified electors. Separate School Boards of Trustees have also the right to appoint trustees. The Principal of the High School or Collegiate Institute must be a graduate of a British or Colonial University, and certified as experienced in teaching. Assistants must also have received the prescribed training. Fees are charged in many cases, and local rates must be raised. Every High School should have a Principal and at least two assistant teachers. Each school receives a fixed amount of \$375, and also a certain sum on salaries of teachers, general equipment and suitability of school premises. High Schools which have complied with certain conditions as to equipment, special teachers, etc., may be made Collegiate Institutes, and receive additional grant. Pupils attending these schools are prepared for Matriculation to the Universities. There were 43 Collegiate Institutes, 105 High Schools, and 123 Continuation Schools doing the same grade of teaching in connection mainly with the Public and Separate Schools in Ontario in 1911.

**Public Schools.**—Each Township is divided into School Sections of a suitable extent for one School; and in each of these Sections three Trustees are elected to manage its school affairs. In Cities, Towns and Villages, the Schools are managed by a Board of School Trustees elected from the Municipality.

**Educational Museum.**—Connected with the Department of Education is a Museum, containing specimens of school apparatus, etc., a valuable collection of Italian, Dutch and Flemish Oil Paintings, and Statuary casts and busts; an art gallery of paintings by Canadian artists. Here also is the largest collection of archaeological material in the Dominion, chiefly illustrative of Ontario, and of North America. R. Orr, M.D., Director of Museum. The Museum is open to the public from 9 a.m. to 5 p.m.

The business of life assurance in Canada during the year, 1910, was conducted by 43 active companies—25 Canadian, 7 British, and 11 American.

## NEW ASSURANCES EFFECTED.

In the year under review, the new policies effected amounted to \$152,762,520, an increase over those taken out in the preceding year of \$21,023,442. The respective amounts effected in each of the three classes of companies were:

Canadian Companies, \$90,362,678, or 59% of the whole.
British " 4,170,562, " 3% " "
United States " 58,229,280, " 38% " "

It will be observed that the business of the Canadian companies exceeded that of the British and United States together by about \$28,000,000.

## TOTAL ASSURANCE IN FORCE.

The aggregate of life assurance in force December 31st, 1910, amounted to \$856,115,059, an increase over that of the previous year of no less than \$75,756,079. The distribution is shown as follows:

	Amount in Force.	Increase.
	\$	\$
Canadian Companies, .....	565,069,110	50,251,673
British " .....	47,816,775	831,583
United States " .....	242,629,174	24,672,823
Total, .....	\$856,115,059	\$75,756,079

The progress of the business, from the standpoint of the aggregate volume of life assurance carried by the several classes of companies, is evidenced when a comparison is instituted with the figures applicable at the close of the three previous decades:

## AGGREGATE LIFE ASSURANCE IN FORCE AT CLOSE OF

Year.	Canadian Companies.	United States Companies.	British Companies.	Total.
	\$	\$	\$	\$
1880	37,838,518	33,643,745	19,789,863	91,272,126
1890	135,218,990	81,599,847	31,613,730	248,424,567
1900	267,151,086	124,433,416	39,485,344	431,069,846
1910	565,069,110	242,629,174	47,816,775	856,115,059

From \$91,000,000 in 1880 to \$856,000,000 in 1910, represents the large increase of over 840% in thirty years.

## DEATH RATE.

The death rate in the several classes of companies was determined approximately by a comparison of the mean number of policies in force with the number of policies which became claims by death. The death rate thus ascertained for 1910 was 10'419 per 1,000, a rate higher than that experienced in any one of the preceding four years. The following table gives the rate for each of the years 1906-7-8-9-10:

	1910.	1909.	1908.	1907.	1906.
Active Companies (ordinary)	7'830	8'281	8'375	8'617	8'232
Active Companies (Industrial)	12'561	12'086	11'935	12'054	12'044
Assessment and Fraternal Societies	8'904	9'089	8'683	8'946	8'567
Non-active and retired companies...	39'216	36'766	52'643	40'440	43'884
Total, .....	10'419	10'260	10'154	10'239	9'895

## BENEFITS TO POLICYHOLDERS.

During 1910 a larger amount was disbursed on behalf of policyholders by way of death claims, endowments, dividends, etc., than in any previous year, the whole aggregating \$20,270,594'69. The details are as follows:

For Death Claims, .....	\$8,173,989'93
For Matured Endowments, .....	4,387,717'94
For Annuities, .....	467,940'16
For Cash Surrender Values, .....	3,647,441'55
For Dividends and Profits, .....	3,603,505'11

\$20,270,594'69

## ASSETS, LIABILITIES, NEW ASSURANCES, CANADIAN COMPANIES.

In determining the relative merits of life assurance companies, a number of factors must be considered. The expense rate, interest rate, rate of mortality experienced, class of investments, character of the men who compose the directorate, and the officers should be considered, etc. Because a company's assets, new assurances, or total assurances in force may run into large figures, these in themselves would not necessarily determine the superiority of the company. As a matter of reference, however, the following items are given for Canadian companies for the year ending December 31st, 1910:

#### PREMIUM RATES.

On the following page there are given the premiums of the principal companies transacting business in Canada for those systems of assurance which are chiefly desired by the insuring public. It will be observed that there are but slight variations in the rates of the different companies, and this is mainly due to the fact that all companies have to maintain minimum reserves on the basis of the British Offices Life Tables Om(5) 1893 and 3½% interest.

#### ASSESSMENT LIFE INSURANCE.

The total amount of policies taken in Canada during the year 1910 by the four Canadian associations above referred to was \$13,693,424, which is more than the amount of assessment policies of these associations taken in 1909 by \$6,015,674, and the net amount in force at the end of the year was \$136,682,194, which is more than the amount in force at the end of 1909 by \$5,827,384. The amount of the insurance terminated by death was \$1,350,175, and by surrender and lapse, \$8,773,509. The total terminations amount to 64.11 per cent. of the amount of new policies.

#### NEW INSURANCE ACT.

The new Insurance Act which had been before Parliament in the session, 1907-8, 1908-9, and 1909-10, became law on the 4th May, 1910. Important improvements have been made in the law, and although the new Act cannot be claimed to be perfection it is believed that the general conduct of life assurance will be much improved thereunder. Some of the principal alterations and additions are as follows:—

(1) A license may be granted for a portion of the Dominion and subject to any condition deemed necessary, and may be renewed for any term less than a year. (Sec. 7.)

(2) A Canadian trust company may be appointed sole trustee for an insurance company, other than a Canadian company, in whom may be vested securities to cover the Canadian liabilities of such insurance company, instead of placing them with the Receiver General. Only such trust companies are now eligible as trustees. (Sec. 20.)

(3) In addition to the annual statements heretofore required from life companies, half-yearly statements showing the securities purchased and loans made, and in like manner the securities sold and loans paid off, are required under the new Act. (Sec. 31.)

(4) When a license has been suspended by the Governor-in-Council in consequence of deficiency of assets, such modified or conditional license may be issued as may be necessary for the protection of policy-holders. (Sec. 41, sub-sec. 3.)

(5) The basis of valuation of the policies of life insurance companies under the old Act was the Hm Table of the Institute of Actuaries of Great Britain. The Hm tables were published in 1872, having been compiled from the experience of twenty offices, and at the time the Consolidated Insurance Act of 1877 was passed were the most up-to-date standard tables of mortality in existence. Since that time, however, an investigation has been made by a committee of British actuaries into the mortality experience of sixty life insurance offices, covering a period of thirty years, from 1883 to 1893. The result of the labours of the committee was the issue in 1902 of the British Offices Life Tables, 1893 Om(5), which tables have been substituted for future use in departmental valuations for the tables which formed the standard under the old Act. It is almost universally agreed that the new table which has been adopted more accurately represents the present day mortality than the former table which has been superseded. (Sec. 42.)

(6) For any violation of the provisions of the new Act or failure by any Canadian company to comply with the provisions of its Charter, or Act of Incorporation, the license may in either case be withdrawn or suspended, or renewal thereof refused. This right of withdrawal or suspension or refusal to renew under the circumstances above mentioned, which was denied under the old Act, is now made quite clear by the new. (Sec. 45.)

(7) The date of holding a company's annual general meeting may be changed by by-law. (Sec. 51.)

(8) Provision is made for the amalgamation in certain cases of life insurance companies or for taking over the assets and reinsuring the policies of one life insurance company by another. The English legislation upon the same subject has been closely followed, with the difference that the Treasury Board takes the place in the Canadian Act which the court holds under the English Act. (Sec. 52.)

(9) No life company is to be permitted to pay any commission or other compensation except such as has been determined in advance. (Sec. 53.)

(10) Advances to agents are not to be allowed as assets in the Superintendent's annual report. (Sec. 54.)

(11) Compensation to the directors of a Canadian life company for their services must be authorized by a vote of the members. No salary can be paid to an officer of such a company unless authorized by a vote of the directors. No salary or compensation, etc., amounting in any year to more than \$5,000 can be paid to any agent unless the contract under which the payment is made has been approved by the directors. (Sec. 55.)

(12) A company cannot make an agreement for payment for services with any officer or trustee extending over a longer period than five years. (Sec. 56.)

(13) Agents only are to receive commissions, with, however, an exception in favor of employees or servants of a company who personally solicit insurance outside office hours. (Sec. 57, sub-sec. 1.)

(14) Staff pension funds may be established by a by-law approved at an annual meeting, or at a special general meeting of the members, notice of the intention to consider such by-law having been given. (Sec. 57, sub-sec. 2.)

(15) The powers of investment of companies within the legislative power of the Parliament of Canada have been very materially changed. While, on the one hand, the field for investment has been greatly widened, territorially and otherwise, the classes of securities which are eligible as investments are more restricted than under the old Act. It would not, however, serve any useful purpose to endeavor to summarize the differences, and for accurate knowledge on the subject a careful perusal of the statute will be found necessary. (Secs. 58, 59, 60, 63, 64, 65 and 66.)

(16) The formation of subsidiary companies for the transaction of business other than insurance controlled or operated by life insurance companies is prohibited, and underwriting by such companies is restricted. (Secs. 61 and 62.)

(17) A company may hold such real estate as is required for its actual use and occupation, or such as may reasonably be required for the natural expansion of its business. In the past, Acts of Incorporation have usually contained provisions limiting the real estate which might be held to a specified annual value in each province of the Dominion. (Sec. 67.)

(18) Authority is conferred on the Superintendent to cause an appraisal of the value of the real estate owned by or mortgaged to a company to be made, and to correct the company's annual statement in accordance with such appraisal. The Superintendent may also order a special audit of the books of a company under certain circumstances. (Sec. 68.)

(19) Unauthorized investments are not to be allowed as assets in the report of the Superintendent, who may make all necessary corrections in the annual statements made by the companies and increase or diminish the liabilities to the correct amounts, subject to an appeal to the Exchequer Court. (Sec. 77.)

(20) A short or model form of Act of incorporation is provided for in the new Act. (See Sec. 82, form F, in the schedule to the Act and Part V thereof.)

(21) After January 1, 1911, every policy of life insurance and the endorsements thereon shall be deemed to contain the whole contract between the policyholder and the company. (Sec. 84.)

(22) An agent or other person soliciting insurance for a life company is not to be considered for any purpose the agent of the insured. (Sec. 85.)

(23) After January 1, 1911, estimates as to dividends or shares of surplus expected to be paid are wholly forbidden. (Sec. 86.)

(24) Each life company is required to keep on deposit with the Superintendent a copy of its fixed rates in the ordinary branch, such rates being based upon an insurance of \$1,000, applicable to insurance for that amount and pro rata for greater amounts. Rebating and discrimination in favour of individuals between the insured of the same class and equal expectation of life are forbidden under heavy penalties. A summary of the provisions relating to these subjects is not deemed necessary; it would be difficult if not impossible to condense them. (Secs. 87 and 88.)

(25) Policies may be issued with quinquennial distribution of profits without restriction; and also policies with longer dividend periods provided that the amount of profits accruing to the policyholders is apportioned quinquennially and carried as an absolute liability in the company's accounts. This latter provision will prevent a dividend once apportioned from being diverted from the use of the policyholders to any other purpose whatever. (Secs. 89 and 90.)

(26) Options are given to the policyholder as to the manner in which his profits are payable, and provision is made for the application of surplus for his benefit in case he fails to make his election. (Secs. 91 and 92.)

(27) Surplus on deferred dividend policies already issued awaiting distribution among policyholders entitled thereto should be apportioned at least quinquennially, and the amount so apportioned treated as a contingent liability only and not as a present liability of the company. (Sec. 93.)

(28) Authority is given for the institution of a suit against a company or the directors or other officers thereof in the name of the Attorney General, on behalf of the policyholders of such company or of any class of such policyholders where a cause of action exists.

(29) Proceedings may also be taken up by the Attorney General at the request of the Superintendent for the winding-up of a Canadian company or for the winding-up of the Canadian affairs of a company other than Canadian, and for the distribution of its Canadian assets. (Sec. 94.)

(30) All policies issued in Canada by life companies after the first day of January, 1911, are required to contain in substance certain provisions which are specified in Sec. 95, which also provides that forms of all such policies shall be filed with the Superintendent. (Sec. 95.)

(31) Companies are required after January 1, 1911, to keep separate accounts of participating and non-participating business. (Sec. 96.)

(32) Life companies other than Canadian are required to insert in each of their Canadian policies a provision to the effect that an action to enforce the obligations thereof may be taken in a court in the Province where the policyholder resides or last resided before his death (Sec. 97.) A similar provision, applicable only to assessment companies, was contained in the old Act.

(33) Sec. 98 requires that all life insurance companies having a capital stock within the legislative power of the Canadian Parliament shall have two classes of directors, viz., shareholders' directors and policyholders' directors, the latter to be at least one-third of the total number of directors. The policyholders' directors must be policyholders who are not shareholders, and are to be elected by the participating policyholders who must, however, vote in person and not by proxy. The section fixes the qualification for the classes of directors. Paid officers of the company, with certain specified exceptions, are not eligible as directors.

(34) Provision is made by which a provincial company, which has been licensed to transact business throughout the Dominion, desiring to confine its business to the province by the legislation of which it was incorporated, may withdraw its deposit from the Receiver-General and have it transferred to the treasurer of such province, and thereafter cease to transact business outside said province. (Sec. 103.)

(35) A clause has been inserted in Section 109 to the effect that in the event of its appearing that the net premium calculated on the basis of the British Offices Life Tables, 1893,  $Om^{(6)}$  and a rate of interest of  $3\frac{1}{2}$  per cent. together with  $2\frac{1}{2}$  per cent. loading for expenses, is in excess of the premiums receivable in respect of any policies issued after January 1, 1911, the company must be charged as a separate liability with the value of an annuity, the amount of which shall be equal to such excess.

(36) Section 110 fixes and defines the relative and respective rights of shareholders and policyholders in the distribution of the profits of life companies within the legislative power of the Parliament of Canada. It gives legislative sanction to the method which in the past has been followed by Canadian companies generally and by the best English companies.

(37) Section 134 fixes the basis of the computation of the reserve liability of fire insurance companies for the purposes of the annual statement required to be furnished to the Superintendent and for calculating the reinsurance value of the unmatured Canadian policies of a company other than Canadian for the purpose of ascertaining the deposit to be made by such companies with the Receiver-General.

### Law Society of Ontario.

The Law Society was first established in 1797, by the Act 37, Geo. III., c. 13, which enabled the then practitioners of the law to form themselves into a society, and make rules for its government. By the Act of 1822, 2 Geo. IV., c. 5, "the Treasurers and Benchers of the Law Society" were formally incorporated; and under these and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner as the various Law Societies of England. Under c. 172 (1897), the Benchers are, exclusive of *ex-officio* members, elected by the Bar, the *ex-officio* consisting of the Attorney-General of the Dominion for the time being, if a member of the Bar of Ontario, and all members of the Bar of Ontario who have at any time held the office of Attorney-General of the Dominion or of Ontario, or of Attorney or Solicitor-General of the former Province of Upper Canada, and any retired Judge of the Supreme Court for Ontario; the *elected*, thirty in number, being chosen by ballot, for a term of five years, by the members of the Bar, in manner prescribed by the Act. Vacancies during the term are filled by the remaining Benchers. On the first day of Easter Term, annually, the Benchers appoint one of their body to be Treasurer, who is also President of the Society. The Benchers sit in Convocation every term for the call of Barristers, the admission of Attorneys and Solicitors to Practice, and of Students to enter the Society. Osgoode Hall, appropriately named after the first Chief Justice, is the Ontario "Inn of Court," or headquarters of the Society, in which is provided accommodation for the Court of Appeal and the High Court of Justice for Ontario; with a valuable and extensive library.
